Attacking the Standardized Exam Dec 24 2022 I have spent the better part of the last 53 years taking well over a thousand multiple choice tests. As a teenager, I struggled through high school. Armed with an average IQ and some fairly significant learning disabilities, I barely graduating with a 1.4 grade point average. However, I was smart enough to figure out early on that much of academics, and that achieving success in academics, had far more to do with the ability to master multiple choice tests than raw intellect. From there I began a 35 year study on the art and science of passing, mastering and scoring high on multiple choice tests. Despite a very substandard high school GPA, I scored high enough on the SAT and the ACT to be accepted to the University of Michigan, one of the top academic institutions in the Country. Upon graduation from college, I accepted a commission as an officer in the United States Marine Corps. As a Marine Officer, I completed dozens of military and civilian schools, including a Masters Degree from Boston University, and a Juris Doctor Degree from the University of Detroit School of Law. In fact, I earned a full ride military scholarship to law school based primarily on the fact I scored so highly on the Law School Aptitude Test (98th percentile). Upon completion of law school, I passed the Michigan Bar exam on the first attempt, scoring 149 points on the multistate (the multiple choice portion of the exam), which was one question away from automatic passage (at 150 they examiners do not need to grade the essay

portion). I have also taken and applied many of the Marine Corps concepts of discipline and mental toughness to the art of preparing for, taking, and passing multiple choice tests. Resigning my commission and leaving the Marine Corps in 1990, I continued both my education as well as honing my test taking skills. I currently hold 12 professional licenses and 5 professional designations, which required me to pass several comprehensive and difficult multiple choice examinations. I have also attended dozens of professional test preparation courses. From those courses I have cherry picked all of the valuable lessons and test taking tips and have included those in this book. One of the professional licenses I hold is a paramedic license. As a paramedic I have gained a much greater understanding of the anatomy and physiology of test taking. Test taking is all about the central nervous system, which of course includes the brain. However, as I explain in this book, it is clear that the sympathetic and parasympathetic nervous systems have as much to do with passing and failing multiple choice tests as does the brain. Accordingly, I have also applied many of those principals in this book.

Murder in the "G" Basketball League Apr 16 2022 This is a 'Who-dun-it' novel about a murder of a member of the Portland, Maine Flounders organization, a minor league basketball team, affiliated with Boston's major league team, the Shamrocks. The Flounders were an eclectic ensemble of U.S. and foreign players, young and old, black and white, urban and city, ex-college and ex-high-school players. The reader will be treated to a modicum of basketball strategies, enough to understand the teams' journey to the "G" League national championship, but will not be pulled into the weeds of basketball. The coach, Butch Baker, a farm boy who entered the Marines after graduating from Annapolis got shot in the arm from a Taliban sniper and upon recovery played several years for the Boston Shamrocks. The tension between the team and coach is gripping as the cultures and backgrounds clash. The coach does not understand the Woke culture and is oblivious to the triggering he causes with some of his draconian remarks and actions. The reader, teased by the title, knows a murder will happen but gets sidetracked by the personal interaction between players with players and the coach with players. The reader is attached to the wily coach, but knows his imperfections and awaits a foul play. Suspense continues in the book until late in the game when the culprit is finally revealed.
