Leach struggled to rid his countrymen of the persistent myth that the monks had been the schoolmasters of the pre-Reformation period in England. To accomplish his goal he embarked on a program of research and publication, based on a mass of hitherto unexplored documents, to establish the great antiquity of many of the nation's Latin schools and to show that they derived from clerical, but secular, colleges of Anglo-Saxon times. Showing this would, he hoped, eliminate the persistant belief that monks had been the school-masters of pre-Reformation England. Miner argues that previous readings of Leach, which suggest that his main concern is to take issue with the Reformation and argue that this great watershed in history was - at least with regard to education - a retrograde step rather than a great movement forward, have not taken into account the full range of his publications. The aim of the present study is thus to place both Leach's achievements and his more controversial theses in historical context. A separate chapter devoted to unpublished material from the Charity Commission reveals Leach's method of work and provides an analytic survey of opinions on his work by reviewers and historians. The author supplements Leach's lack of material on the school curriculum through descriptive analysis of grammatical manuscripts from the fourteenth and fifteenth centuries, showing the presence of an educational Christendom of which Leach was clearly unaware. John Catt's Preparatory Schools 2012 provides parents and children with information about all the 1500 independent prep and junior schools in the UK and includes more detailed information from selected schools. The first history of

Pocklington School was published in 1950, and still remains a valuable record. However, since then research has revealed a great deal of fresh material. Some of this has helped us to reassess opinions about earlier periods in the school's life. 500 years is a remarkably long time for a school to survive on its original site. The new history tracks these five centuries through prosperous times and poor, revealing eras of distinction and also low points when the school all but ceased to operate. The school today is thriving as never before, and later chapters give an accurate picture of a busy, vibrant and happy community.
