What happens when justice is delayed? It is denied, certainly. That answer, while a truism, is also incomplete, for it does not describe the depth, intensity, and complexity of the impact of delay in Indian courts. Several questions may be considered in this context: How does an undertrial prisoner bring up her child in prison? How does delay in disposal of a claim affect a company's business? Who suffers when land acquisition is mired in litigation-landowner or the public? Does involvement in prolonged litigation detract from a government's primary purpose? Will appointing more judges solve the problem of delay and rising pendency? Are amendments to law and policy working to mitigate delays? To answer these and other questions, this volume of essays-to which lawyers, economists, sociologists, researchers, and a High Court judge have contributed-goes beyond understanding the price of delay in terms of lost time and money. Instead, it examines the effects of delay at multiple levels-individual, institutional, societal, and systemic-through critical data analyses. It also presents innovative use of cross-disciplinary methods to understand what causes delay, how its impact can be measured, and how its effects can be anticipated and

avoided. Targeted systemic interventions are crucial to minimise the adverse impact of delays, so that justice is neither delayed nor frustrated, or, indeed, reduced to mere illusion! Online Classroom: Australian Geography Series - Year 5 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 5 students and bringing classroom lessons to life. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian Geography Series Book 5: Characteristics Of Places', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 5 Geography to life. The curriculum-linked topics include: Section 1: North America And Europe In this section learn about the continents of Europe and North America. Section 2: The Australian Environment: In this section learn about how people have changed Australia over time. Section 3: Place And Space In this section learn about how people use, manage and respond to places and spaces. Section 4: Bushfires And Floods In this section learn about the impact of bushfires and floods in Australia. Online Classroom can be used to:

- plan and present your lessons
- generate lively class discussions
- set up group work
- foster independent learning on individual devices
- set online homework and digital research tasks

An introduction to a broad range of topics in deep learning, covering mathematical and conceptual background, deep learning techniques used in industry, and research perspectives. "Written by three experts in the field, Deep Learning is the only comprehensive book on the subject." —Elon Musk, cochair of OpenAI; cofounder and CEO of Tesla and SpaceX Deep learning is a form of machine learning that enables computers to learn from experience and understand the world in terms of a hierarchy of concepts. Because the computer gathers knowledge from experience, there is no need for a human computer operator to formally specify all the knowledge that the computer needs. The hierarchy of concepts allows the computer to learn complicated concepts by building them out of simpler ones; a graph of these hierarchies would be many layers deep. This book introduces a broad range of topics in deep learning. The text offers mathematical and conceptual background, covering relevant concepts in linear algebra, probability theory and information theory, numerical computation, and machine learning. It describes

deep learning techniques used by practitioners in industry, including deep feedforward networks, regularization, optimization algorithms, convolutional networks, sequence modeling, and practical methodology; and it surveys such applications as natural language processing, speech recognition, computer vision, online recommendation systems, bioinformatics, and videogames. Finally, the book offers research perspectives, covering such theoretical topics as linear factor models, autoencoders, representation learning, structured probabilistic models, Monte Carlo methods, the partition function, approximate inference, and deep generative models. Deep Learning can be used by undergraduate or graduate students planning careers in either industry or research, and by software engineers who want to begin using deep learning in their products or platforms. A website offers supplementary material for both readers and instructors. The third novel in the New York Times bestselling young adult series by YouTube sensation Zoe Sugg. From the reviews of the First Edition. "An interesting, useful, and well-written book on logistic regression models . . . Hosmer and Lemeshow have used very little mathematics, have presented difficult concepts heuristically and through illustrative examples, and have included references." —Choice "Well written, clearly organized, and comprehensive . . . the authors carefully walk the reader through the estimation of interpretation of coefficients from a wide variety of logistic regression models . . . their careful explication of the quantitative re-expression of coefficients from these various models is excellent." —Contemporary Sociology "An extremely well-written book that will certainly prove an invaluable acquisition to the practicing statistician who finds other literature on analysis of discrete data hard to follow or heavily theoretical." —The Statistician In this revised and updated edition of their popular book, David Hosmer and Stanley Lemeshow continue to provide an amazingly accessible introduction to the logistic regression model while incorporating advances of the last decade, including a variety of software packages for the analysis of data sets. Hosmer and Lemeshow extend the discussion from biostatistics and epidemiology to cutting-edge applications in data mining and machine learning, guiding readers step-by-step through the use of modeling techniques for dichotomous data in diverse fields. Ample new topics and expanded discussions of existing material are accompanied by a wealth of real-world examples-with extensive data sets available over the Internet. The heir of ash and fire bows to no one. A new threat rises in the third book in the #1 bestselling Throne of Glass series by Sarah J. Maas. Celaena Sardothien has survived deadly contests and shattering heartbreak, but now she must travel to a new land to confront her darkest truth. That truth could change her life-and her future-forever. Meanwhile, monstrous forces are gathering on the horizon, intent on enslaving her world. To defeat them, Celaena will need the strength

not only to fight the evil that is about to be unleashed but also to harness her inner demons. If she is to win this battle, she must find the courage to face her destiny-and burn brighter than ever before. The third book in the #1 New York Times bestselling Throne of Glass series continues Celaena's epic journey from woman to warrior. Online Classroom: Australian Geography Series - Year 1 is a package that includes: Interactive Online Geography Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 1 students and bringing classroom lessons to life. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian Geography Series Book 1: Places Have Distinctive Features', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 1 Geography to life. The curriculum-linked topics include: Section 1: Features Of Places In this section learn about natural, managed and constructed features. Explore Dreaming stories which explain the creation of natural features, and consider how features of places are looked after. Section 2: Weather And Seasons In this section learn about seasons and weather patterns in Australia and places around the globe. Section 3: Activities And Location In this section find out why the activities that we do often depend on where we live, and learn about ways to manage waste. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks This book was written to aid families with ancestors from Laurens County, South Carolina, to jumpstart their genealogical research. Although the focus is on sources of particular relevance to African Americans, the book also contains information relevant to slave-holding families. Also, the background information at the beginning of each section will be of general interest to those families from South Carolina who are researching their African ancestors. In addition to practical advice born from the authors genealogical research and formal studies, the book includes information and compilations regarding the following topics: Free Persons of Color in Antebellum Laurens Slaves in Will Transcripts (17821860) Legislative Papers (17821866) Comptroller General Tax Return Books (18661868) 1869 SC State Population Census 1860 US Census Slave Schedule and Matching African American Surnames in the 1870 US Census Excerpts of Freedmen Bureau Records Grave Markers at Five African American Churches Discover the latest advancements in Microsoft Excel 2016 with MICROSOFT OFFICE 365 & EXCEL 2016: INTERMEDIATE -- the new edition in today's

generation of Shelly Cashman Series books. For more than three decades, the Shelly Cashman Series has effectively introduced computer skills to millions. MICROSOFT OFFICE 365 & EXCEL 2016: INTERMEDIATE continues the Series' history of innovation with a proven learning approach enhanced to address the learning styles of today's readers. A trademark step-by-step, screen-by-screen approach encourages readers to expand their understanding of Microsoft Excel 2016 through experimentation, critical thought, and personalization. This new edition delivers effective educational materials specifically designed to engage readers, improve retention, and prepare future and current professional for future success with basic and advanced Microsoft Excel 2016 skills. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends. Located in the center of Asia with one of the largest land frontiers in the world and 14 neighbors whose dispositions could not easily be predicted, China has long been obsessed with security. In this handbook, an internationally renowned team of contributors provide a comprehensive and systematic analysis of contemporary thinking about Chinese national security. Chapters cover the PRC's historical, ideological and doctrinal heritage related to security, its security arrangements and policies targeting key regions and nations of the world, the security aspects of the PRC's ground, air, sea, space and cyber forces, as well as the changing and expanding definition and scope of China's security theory and practice. Based on massive new research, a compelling and surprising account of the twentieth century's closest election The 1960 presidential election between John F. Kennedy and Richard Nixon is one of the most frequently described political events of the twentieth century, yet the accounts to date have been remarkably unbalanced. Far more attention is given to Kennedy's side than to Nixon's. The imbalance began with the first book on that election, Theodore White's The Making of the President 1960—in which (as he later admitted) White deliberately cast Kennedy as the hero and Nixon as the villain—and it has been perpetuated in almost every book since then. Few historians have attempted an unbiased account of the election, and none have done the archival research that Irwin F. Gellman has done. Based on previously unused sources such as the FBI's surveillance of JFK and the papers of Leon Jaworski, vice-presidential candidate Henry Cabot Lodge, and many others, this book presents the first even-handed history of both the primary campaigns and the general election. The result is a fresh, engaging chronicle that shatters long-held myths and reveals the strengths and weaknesses of both candidates. Finn and his companions barely escaped their encounter with Bilel. But not without a cost - including the loss of Finn's left arm and the magical corruption that now plagues his body. Despite those handicaps, Finn must keep pressing forward if he is to have any hope of bringing Rachael back. As the Seer predicted, the

guilds and Khamsin have formed a fragile alliance. But before they can lay siege to Lahab, Finn and his companions must first find a way to defend themselves and their fledgling army from the effects of the god relic that Bilel now wields... Online Classroom: Australian History Series - Year 1 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 1 students and bringing History to life for them. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian History Series Book 1: Family Life', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 1 History to life. The curriculum-linked topics include: Family Roles and Structures: The first section encourages the students to explore family structures and roles in the recent past and in the present, and examine how they have changed and/or stayed the same. This section also gives students the opportunity to look at family structures in Aboriginal and Torres Strait Islander societies. Expressing Time: The second section is designed to help students express time. It introduces and consolidates vocabulary to do with the past, the present and the future by exploring significant events and dates within students' own context. Daily Life Now and Then: The third and final section includes activities which help the students use a number of sources to investigate the lives of their parents and grandparents when they were young. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks Online Classroom: Australian Geography Series - Year 2 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 2 students and bringing classroom lessons to life. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian Geography Series Book 2: People Are Connected To Places', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom

brings Year 2 Geography to life. The curriculum-linked topics include:

Section 1: Dividing Up The World In this section learn about continents, hemispheres, the tropics, the North and South Poles and the equator. Section 2: Names And Size Of Places In this section learn how places in Australia were named, why some places have two names, and the relative sizes of places and spaces. Section 3: Indigenous Australians In this section learn about creation beliefs, methods of caring for the land, birth rights and Torres Strait Islander culture. Section 4: Global Links In this section learn about ways that we are connected to other places in the world. Section 5: Going Places In this section learn about why we visit places. Consider too, why we visit places that are near to us more often. Online Classroom can be used to:

- plan and present your lessons
- generate lively class discussions
- set up group work
- foster independent learning on individual devices
- set online homework and digital research tasks

The E36 was the embodiment of the luxury sports sedan, and the standard that other manufacturers strived to reach. And as such, the BMW 3 Series became wildly popular with BMW manufacturing 2.67 million E36 cars worldwide from 1992 to 1999. The new E36 featured a more aerodynamic design, potent dual overhead cam engine, multilink rear suspension, and a more luxurious interior than its predecessor. The E36 BMW seamlessly blended exhilarating performance with refined appointments and produced a comfortable yet aggressive driving machine that appealed to a wide audience. Although the stock BMW is a more-than-capable sports sedan, veteran author Jeffrey Zurschmeide delves into all the different methods for extracting more performance, so you can make your E36 even more potent. He explains how to upgrade handling and control through installation of aftermarket coil-over springs, bushings, sway bars, and larger brakes. Producing more power is also a priority, so he shows you how to install and set up a cold-air intake, ignition tuners, and exhaust system components. You are also guided through work on cylinder heads, cams, and pistons. In addition, you're shown the right way to install superchargers and turbo kits. If your 3 Series is making more power, then you need to get that power to the ground; guidance is provided for upgrading the transmission and limited-slip differentials. The BMW 3 Series has set the benchmark for performance and luxury. But even at this benchmark, these cars can be dramatically improved. Each major component group of the car can be modified or upgraded for more performance, so you can build a better car that's balanced and refined. If you want to make your E36 a quicker, better handling, and more capable driving machine, this book is your indispensable guide for making it a reality. Online Classroom:

Australian Geography Series – Year 6 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 6 students and bringing classroom lessons to life. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The

code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian Geography Series Book 6: A Diverse And Connected World', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 6 Geography to life. The curriculum-linked topics include:

Section 1: Asia: In this section learn about the different parts of Asia; where countries are located; the people who live in Asia; traditions and the diversity of environments and population in this amazing part of the world. Section 2: Global Economic, Demographic And Social Differences: In this section learn about equity and inequity in countries in the continents of Asia and around the world. Section 3: Cultural Diversity: In this section learn about diversity around the globe. Find out about the wonderful differences in the world that we can celebrate. Section 4: Australian Relations: In this section learn about Australia's relationship with other countries around the globe. Online Classroom can be used to:

- plan and present your lessons
- generate lively class discussions
- set up group work
- foster independent learning on individual devices
- set online homework and digital research tasks

Online Classroom: Australian History Series – Year 3 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 3 students and bringing History to life for them. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian History Series Book 3: Community And Remembrance', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 3 History to life. The curriculum-linked topics include: Local Indigenous Groups: The first section gives students the opportunity to examine Indigenous Australians and use sources to understand where they came from and why they place so much importance on country and place. Students will identify a local indigenous language group to help them understand and develop an appreciation of local indigenous culture. Local Changes and Continuities: The second section encourages students to trace important changes and continuities in their local area, dating back to early colonial Australia. They will investigate changes and continuities in relation to work, transportation, education, parks and gardens and entertainment. Development and Character of the Local Community: The content in the third section

has been designed to help students explore the cultural diversity of their local area and assess how different cultures have influenced Australian communities in relation to religion, beliefs, architecture and festivals. Special Days, Symbols and Emblems: The fourth and final section allows students to identify and discuss the origins and importance of special days celebrated and recognised by all Australians, and explore local and national symbols and emblems. Online Classroom can be used to:

- plan and present your lessons
- generate lively class discussions
- set up group work
- foster independent learning on individual devices
- set online homework and digital research tasks

Teach English Online Series Books 1, 2 & 3 All Your Need for Teaching as a TEFL / ESL teacher and a Private English Tutor Online This 3 book series contains all you need to get started teaching English online from home without any experience, as a TEFL or ESL teacher and as a private English tutor. This boxset includes: Teach English Online from Home - How to get started without any teaching experience Rockstar Teacher - How to get great feedback teaching English online Private English Teacher - How to get started teaching ESL & TEFL from home I changed my career (and I mean a complete U-turn) and was teaching full time and generating a good income in less than 6 months, starting from zero (literally). These books are the guides I wish I'd had at the start of my journey. Are you struggling to reach new clients, customers, or social media followers? Frustrated with Facebook ads not producing good results? Paying thousands of dollars to social media managers and SEOs and still only minimal conversions? Then let this snappy, little guide from the INFLUENCER series help you in typical, fun - SassyZenGirl - style! What 98% of businesses miss + why they fail! PART 1 starts with the 10 must-have pillars for any internet marketing success. This is what 98% of entrepreneurs and business owners miss and why they fail! Your marketing campaigns cannot be successful if you forget even one of these marketing basics, and you need to have them in place before even considering any marketing strategies! Learn how the 2% of successful entrepreneurs smartly position their brands, so customers will always choose their business over everyone else (hint: it's not luck - there is a proven branding strategy at play here and you can apply it, too!). In PART 2, we will cover the psychological principles of effective copywriting and how you can make your sales copy instantly more effective by just changing one or two words. You will see what your #1 FOCUS needs to be, especially during your first year (it's probably not what you expected...). In PART 3, we will cover the: TOP 15 most effective Digital Marketing Strategies for 2020 so you can pick the ones best suited for your business while maximizing their effectiveness. Whether you: Have struggled to gain traction with your blog posts or want to use blogging for profit... Want to leverage the amazing power of influencer marketing, learn the most effective influencer strategies and how to find influencers on Instagram, Facebook & Youtube that will actually bring you results... Read every social media bible... ) but are still struggling with social media copywriting or branding, still not gaining any followers in large numbers... Want to explore newer strategies like messenger chat bots

& Medium Discover how Pinterest can generate you a 100K a month (not a typo!) Or... Still wondering how to start a business online and What do I need to start a business? You will have a clear action plan in place once you finish this book and finally feel that you, YES YOU (even the quiet introvert in the back...: ), can master marketing and get your business the attention - and financial rewards - you deserve. Ready to #ShareYourAWESOME with the world? Then scroll up to the top and hit that BUY BUTTON! Dismantling of al - Qaradawi Dismantling al-Qaradawi reveals a secret Muslim Brotherhood speech in the UAE by analyzing early examples and the role of cleric Yusuf al-Qaradawi in spreading extremism. Al-Qaradawi: Face and Face Abu Dhabi - The head of Al-Mazma Center for Studies and Research decried the secret organization of the Muslim Brotherhood in the UAE by analyzing early examples of the Brotherhood's media discourse. In the second issue of the series "Roots of Conspiracy against the UAE," Dr. Salem Humaid returned to the role of the Qatari cleric of Egyptian origin Yusuf Al-Qaradawi in spreading the Brotherhood's thought in the UAE by returning to the selected pages of his autobiography, His first visit to the UAE in the 1960s. In the context of al-Qaradawi's memoirs and his autobiography, Hamid found numerous evidence about the plotting of the Brotherhood's global organization against the Gulf states since the 1960s. The study, entitled "Al-Qaradawi and the Spreading of Muslim Extremism in the UAE," included an analysis of examples of the media discourse of the Muslim Brotherhood, as well as an appendix to the publications. The attempts of the Muslim Brotherhood to expose the presence of the people of the UAE through the confession of the Brotherhood preacher and the spiritual father of the Muslim brotherhood in the Gulf, Yusuf al-Qaradawi planted the Brotherhood seed in the UAE. The new version showed that the objectives of the Muslim Brotherhood in the country since the seventies were of a transitional nature, where they were busy with many of the manifestations and manifestations of economic and social renaissance in the country, so that the intellectual system of the Brotherhood is a desperate case of rejection of cultural transformations in the UAE .. The UAE community In turn did not respond to that reluctance did not retreat from integration with the benefits of economic and educational renaissance. In his critical reading, Hamid analyzed the logic and rhetoric of the early media publications that the Brotherhood organization in the UAE had published in Islah. And returned to the publications of the early eighties and necessitated the nature of the topics and ramifications of the extensive analysis, recalling whenever necessary the background of some publications that focused on dealing with issues related to events that were contemporaneous or concurrent with it, such as the Israeli invasion of Lebanon and the siege of Beirut, in addition to the status that was And the reasons for the vicious media attack launched by the Muslim Brotherhood against it, and other headlines. Hamid presented in the new issue a package of old media publications, which was the project of the secret cell of the Muslim Brotherhood through which the future image that the extremists were drawing for the UAE, considering that their objectives since the seventies were of a

transitional nature, where they were busy much resistance to many manifestations and manifestations of economic and social renaissance The Brotherhood's intellectual system was a desperate state of resistance to transformations that did not stop in the UAE. The UAE society, in turn, did not respond to this reluctance and did not retreat from integration with the benefits of economic and educational renaissance. Dr Salem Hamid, who has been an example of hardline opposition to the achievements in the UAE, said that they have been targeting sports clubs and controlling the education sector and university student unions. But they failed to penetrate sports clubs and youth sectors, and failed to attract the community because of their reliance on the usual quality and consumption of speeches that ignore the concerns of the local reality, in return for its focus on stimulating public enthusiasm, to recruit young people to participate in the civil wars that were taking place in different Muslim countries under The title of Jihad. Hamid revealed in the study, which is an important reference to the role of the group in the UAE, that the last targets of the Muslim Brotherhood impossible in the state "was greater than their size, and more than the number of clients who completed the intentions of betrayal of the homeland in their conscience and matured in their heads, Behind the border with funds and tips to encourage violence. " The Brotherhood's desire to spread chaos and destroy the stability of the UAE was without borders. It was enthralled by the unrest that erupted in some Arab countries in order to develop their plans. They established armed cells according to their confessions documented by the official authorities. They did not think this time to listen to the voice of the homeland And instead of fulfilling the land that gave them a life of prosperity and a sense of dignity and dignity, they preferred to listen to their masters abroad, and thought that the UAE people would come with them to replace the stability with chaos and crime. And their plans dug into their sick fantasies resemble a legendary scene of an object driven by despair and the desire to commit suicide until the eye is bloated with his hand. The Center for Studies and Research seeks to express in an open language the need to confront extremism and uncover the roots of conspiracy, in conjunction with the reactions and echoes that continue to impose themselves since the collapse of the secret cell of the Muslim Brotherhood in the UAE. The authorities accuse the cell of dealing with the global organization of the Muslim Brotherhood, which seeks to overthrow the governments in a number of Arab countries, taking advantage of the turmoil created by the Arab Spring and through which to reach power in Egypt, Tunisia and Gaza after the removal of his partners in power. The Muslim Brotherhood's global organization targets the UAE in particular on the pretext of reform, which Emiratis generally reject, while the Brotherhood is betting on support from the organization's leadership in Qatar or members of the organization in the Gulf, Egypt, Tunisia and Palestine. Online Classroom: Australian History Series - Year 4 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at

engaging Year 4 students and bringing History to life for them. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian History Series Book 4: First Contacts', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 4 History to life. The curriculum-linked topics include: Indigenous Australians: The first section helps students to develop an understanding of the diversity and longevity of Indigenous Australians and explores their way of life prior to colonisation. World Navigation Before 1800: The second section encourages students to investigate the voyages of navigators worldwide and the contacts that they made with others. Departure and Arrival of the First Fleet: The third section examines why the First Fleet set sail, conditions on board, and the experiences of the passengers during and after the journey. Indigenous People and Others: The final section gives students the opportunity to explore the contact that Indigenous Australians had with their Asian neighbours and early European settlers. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks [Administration (référence électronique)]. An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Forecasting is required in many situations. Stocking an inventory may require forecasts of demand months in advance. Telecommunication routing requires traffic forecasts a few minutes ahead. Whatever the circumstances or time horizons involved, forecasting is an important aid in effective and efficient planning. This textbook provides a comprehensive introduction to forecasting methods and presents enough information about each method for readers to use them sensibly. Trapped in the game. Forced back to level 1. What's next, permadeath? Sky Realms Online is the largest and most popular Virtual Reality MMORPG ever made. Set amongst the mystical, floating islands of Hankarth, it's played and enjoyed by millions every hour. Until something goes wrong. Unable to log out, players find themselves reduced to level one, and in the starting zones. They receive a cryptic message from the developers stating that for unknown reasons, they are trapped in the game and may have to live out their lives within the virtual world. Hall is one of the those trapped in the game. He's been playing Sky Realms Online as a spear-wielding Skirmisher ever since the beta. And instead of panicking as many do, he decides to make the most of it; to play the game and live his new life, all while quietly hoping the developers will find a fix. It doesn't take Hall long to find out that, while some aspects of the game are the same, the difficulty level is beyond anything he's ever experienced.

Together, with a new party of trapped players and NPCs with canned answers, Hall will find out just how different Sky Realms Online has become, and how playing a game is different from living the game... Experience the start of this unforgettable Fantasy LitRPG Adventure today! It's perfect for fans of J.A. Hunter, Dakota Krout and Edward Brody. Online Classroom: Australian Geography Series - Year 3 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 3 students and bringing classroom lessons to life. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian Geography Series Book 3: Places Are Similar And Different', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 3 Geography to life. The curriculum-linked topics include: Section 1: Australian Boundaries In this section learn about divisions and boundaries in Australia as well as well-known Australian natural features. Section 2: Australia And The Pacific Islands In this section learn about similar and different human and natural characteristics in places located in Australia and the Pacific Islands. Section 3: Diverse Climates In this section learn about the difference between the weather and climate and investigate different weather patterns and climates around the world. Section 4: Place In this section learn about people's relationship with different places; how we can protect and preserve places; the different types of places where Australians choose to live and how place affects lifestyle.. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks Online Classroom: Australian Geography Series - Year 4 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 4 students and bringing classroom lessons to life. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian Geography Series Book 4: The Environment Sustains Life', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been

carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 4 Geography to life. The curriculum-linked topics include: Section 1: The Importance Of The Environment To Animals And People In this section learn about why it is important to care for and manage different types of Australian environments. Section 2: Indigenous Australians In this section learn about the relationship that the traditional owners of the land have with Australia and their sustainable methods of living. Section 3: Sustainable Management Of Waste And Natural Resources In this section learn about ways to manage resources and waste sustainably. Section 4: Continents Of South America And Africa In this section learn about two important continents in our world. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks Online Classroom: Australian History Series - Year 2 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 2 students and bringing History to life for them. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian History Series Book 2: The Past In The Present', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 2 History to life. The curriculum-linked topics include: Significant People and Places: The first section emphasises that people have important stories to tell about the past. It also introduces the idea that places in their local area can give us a sense about what life was like many years ago. Sites of Significance: The second section introduces students to sites of historical and cultural importance in Australia to help them choose a site to study in their local area. Changing Technology and People's Lives: The final section explores how advancing technology has changed the way we live. Housing, travel, communication, entertainment are points of examination. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks This book shares unique perspectives on the successful global evolution and future ambitions of Chinese consumer companies. It presents an unprecedented collection of one-on-one interviews with some of the most influential leaders in China, whose companies offer diverse products and services. Further, the book offers future business leaders encouragement and guidance on how to ride the consumer wave in China. It also investigates some of the foremost current

trends, revealing the best opportunities for companies to succeed on the Chinese market. Written by a successful business leader, this book is a timely must-read for anyone seeking to understand Chinese consumers, the Chinese market and what makes Chinese entrepreneurs tick - helping them learn how to do business "Made for China". Online Classroom: Australian History Series - Year 6 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 6 students and bringing History to life for them. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian History Series Book 6: Australia As A Nation', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 6 History to life. The curriculum-linked topics include: Australia's Federation: The first section helps students to develop an understanding of Australian Federation. Australian Democracy and Citizenship: The second section encourages students to explore the experiences of Australian democracy and citizenship for women, and asks students to further research the experiences of another group. Australian Migrants: The third section looks at the stories of people who have migrated to Australia and examines the reasons why they migrated. Contribution of Migrants: The fourth section explores the contributions that migrants have made to Australia and specifically focuses on the pearling industry and the Snowy Mountains Hydro-Electric Scheme. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks Online Classroom: Australian History Series - Year 5 is a package that includes: Interactive Online Resource The online resource can be viewed on smart/whiteboards, tablets and laptops. This interactive resource includes videos, audio, clickable buttons, graphics and more. It is specifically targeted at engaging Year 5 students and bringing History to life for them. Teachers' Guide The teachers' guide includes step-by-step instructions to using the online resource. All you will need to know about using the online resource is provided in this guide. The code and registration details are provided in this guide too. BLM Activity Sheets Photocopiable BLM activity sheets which link to the online content are included in this package. Originally created for our popular BLM 'Australian History Series Book 5: The Australian Colonies', these activity pages have been modified for this package. Students can complete the activities after viewing the online content. All of the activity sheets have been

carefully created to meet the requirements of the Australian Curriculum. Online Classroom brings Year 5 History to life. The curriculum-linked topics include: Establishment of the British Colonies: The first section helps students to develop an understanding of the reasons why Britain decided to establish colonies in Australia after 1800. Colonial Life and Patterns of Settlement: The second section encourages students to investigate daily life in colonial Australia for Indigenous Australians and convicts, and explores the affect of colonialism on the environment. It also looks closely at the reasons behind the location of various settlements. Events that Affected Colonies: This section examines frontier conflict, internal exploration of Australia and the expansion of farming. Australian Migrants: The fourth section provides students with the opportunity to share the experiences of different Australian migrants, such as assisted passengers, indentured labourers and those escaping the Irish Potato Famine and the Highland Clearances. It also examines the contributions of particular migrants in Australia. Great Australians: The final section examines the contributions that Caroline Chisholm, Louise Lawson and indigenous guides and trackers made to shaping colonies. Online Classroom can be used to: • plan and present your lessons • generate lively class discussions • set up group work • foster independent learning on individual devices • set online homework and digital research tasks CHOICE Award Winner Since the first publication in 1995, the Organic Chemist's Desk Reference has been essential reading for laboratory chemists who need a concise guide to

the essentials of organic chemistry — the literature, nomenclature, stereochemistry, spectroscopy, hazard information, and laboratory data. The past fifteen years have witnessed immense growth in the field of chemistry and new discoveries have continued to shape its progress. In addition, the distinction between organic chemistry and other disciplines such as biochemistry and materials science has become increasingly blurred. Extensively revised and updated, this new edition contains the very latest data that chemists need access to for experimentation and research. New in the Second Edition: Rearranged content placed in a logical progressive order, making subjects easier to find Expanded topics from the glossary now presented as separate chapters Updated information on many classic subjects such as mass spectrometry and infrared, ultraviolet, and nuclear magnetic resonance spectroscopy New sections on chiral separations and crystallography Cross references to a plethora of web information Reflecting a 75% revision since the last edition, this volume is a must-have for organic chemists and those in related fields who need quick and easy access to vital information in the lab. It is also a valuable companion to the Dictionary of Organic Compounds, enabling readers to easily focus in on critical data. This review provides a snapshot of the state-of-art of School Feeding Programmes in 14 of the 15 CARICOM Member States. It provides an overview of the different models of school feeding programmes that currently exist in the Caribbean, challenges faced and recommendations for improvement. Among the aspects evaluated include: the governance structure, nutritional quality of meal served, linkages with small

farmers for the procurement of products used in the meals, involvement of children in school gardens related activities, etc. The document includes a case study for each of the participating countries (namely Antigua and Barbuda, Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Suriname and Trinidad and Tobago). For each of these countries, an Annual Net Benefit Analysis was conducted, using information collected in 2017. The aim is that the document can provide preliminary information and recommendations that can be relevant for governments, public organizations, donors, opinion leaders, private sectors, and others toward strengthening school feeding programmes in the Caribbean. It was developed with the support of the University of the West Indies and the Caribbean Agro-Economic Society under the leadership of Prof. Carlisle Pemberton and Dr. Hazel Paterson-Andrews. This book includes selected papers presented at World Conference on Information Systems for Business Management (ISBM 2022), held in Bangkok, Thailand, during September 2-3, 2022. It covers up-to-date cutting-edge research on data science, information systems, infrastructure and computational systems, engineering systems, business information systems, and smart secure systems. A thorough presentation of analytical methods for characterizing soil chemical properties and processes, Methods, Part 3 includes chapters on Fourier transform infrared, Raman, electron spin resonance, x-ray photoelectron, and x-ray absorption fine structure spectroscopies, and more.
