"Parents looking for a book about separation or divorce will find few offerings as positive, matter-of-fact, or child-centered as this one. . . . Simple, yet profoundly satisfying." – Booklist (starred review) At Mommy's house, Alex has a soft chair. At Daddy's house, Alex has a rocking chair. In each home, Alex also has a special bedroom and lots of friends to play with. But whether Alex is with Mommy or with Daddy, one thing always stays the same - Alex is loved. The gently reassuring text focuses on what is gained rather than what is lost when parents divorce, while the

sensitive illustrations, depicting two unique homes in all their small details, firmly establish Alex's place in both of them. Two Homes will help children - and parents - embrace even the most difficult of changes with an open and optimistic heart. Get ready for kid-approved ideas that celebrate the great outdoors year round! Whether you're building forts or making fresh cider, there's something for every kid and every season. What might unfold if we put away our devices for an hour, a day, or even longer? What adventures await, when we press pause on technology? The Unplugged Family Activity Book invites you and your loved ones to connect, create, and celebrate all year long. With more than 50 projects, crafts, and recipes, plus ideas for seasonal celebrations to share with family and friends, there's fun to be had, all through the year. Host a springtime tea party, where you'll nibble shortbread cookies and make a mossy teacup fairy garden. Or gather with friends for a summer potluck party. Blow giant bubbles, race leaf-and-bark boats, or camp out in your own backyard. In the fall, enjoy a harvest party with your friends! Create a fall leaf rainbow, sip mulled cider, and bake bread over a campfire. When winter comes, celebrate the longest night of the year with twinkling ice lanterns. Try your hand at candle dipping and pen your wishes for the coming year. You'll find instruction and recipes for: Candied violets Herbal first aid balm Rose petal tea Infused honey Homemade ice cream Summer flower bunting

Homemade dragonfly wings Felted acorn necklaces Autumn gratitude tree Decorative lanterns Baked apples Winter stargazing Maple lollipops Dried citrus garland Plus dozens more crafts, projects, and recipes! In *The Unplugged Family Activity Book*, you'll fall in love with every season—wherever you call home. So grab your family and friends, and get ready for an adventure that will last all through the year! From the expert team behind *IT'S PERFECTLY NORMAL* and *IT'S SO AMAZING!* comes a book for younger children about their bodies — a resource that parents, teachers, librarians, health care providers, and clergy can use with ease and confidence. Young children are curious about almost everything, especially their bodies. And young children are not afraid to ask questions. What makes me a girl? What makes me a boy? Why are some parts of girls' and boys' bodies the same and why are some parts different? How was I made? Where do babies come from? Is it true that a stork brings babies to mommies and daddies? *IT'S NOT THE STORK!* helps answer these endless and perfectly normal questions that preschool, kindergarten, and early elementary school children ask about how they began. Through lively, comfortable language and sensitive, engaging artwork, Robie H. Harris and Michael Emberley address readers in a reassuring way, mindful of a child's healthy desire for straightforward information. Two irresistible cartoon characters, a curious bird and a squeamish bee, provide comic

relief and give voice to the full range of emotions and reactions children may experience while learning about their amazing bodies. Vetted and approved by science, health, and child development experts, the information is up-to-date, age-appropriate, and scientifically accurate, and always aimed at helping kids feel proud, knowledgeable, and comfortable about their own bodies, about how they were born, and about the family they are part of. Our unit has been developed to reinforce the concept that "a family is who lives at your house" and to realize that all families are different, culturally and socially. Includes patterns to make a big book, hands-on activities, plus rebus stories about different families and what they do. Our resource, geared toward the theme of the family, includes centre book pages, visual discrimination, food for families, and favourite family recipes. This Social Studies lesson provides a teacher and student section with language arts, art, and math activities, patterns, hands-on, and pocket chart activities, bookmaking, recipes, word cards, and rebus stories to create a well-rounded lesson plan. In Building a Successful Family Business Board , the authors show why private firms need the in-depth expertise and objective feedback that a well-chosen board, including qualified independent directors, can provide, and demonstrates how owners and directors can work together to ensure a long and profitable life for the firm. The inspiration for The

Durrells in Corfu, a Masterpiece production on public television: A naturalist's account of his childhood on the exotic Greek island. When the Durrells could no longer endure the gray English climate, they did what any sensible family would do: sold their house and relocated to the sun-soaked island of Corfu. As they settled into their new home, hilarious mishaps ensued as a ten-year-old Gerald Durrell pursued his interest in natural history and explored the island's fauna. Soon, toads and tortoises, bats and butterflies—as well as scorpions, geckos, ladybugs, praying mantises, octopuses, pigeons, and gulls—became a common sight in the Durrell villa. Uproarious tales of the island's animals and Durrell's fond reflections on his family bring this delightful memoir to life. Capturing the joyous chaos of growing up in an unconventional household, *My Family and Other Animals* will transport you to a place you won't want to leave. This ebook features an illustrated biography of Gerald Durrell including rare photos from the author's estate. So much of recovery from codependence has to do with figuring out where we stop and another person begins. Growing up in an alcoholic or dysfunctional family often prevents us from creating healthy physical, emotional, intellectual, and spiritual boundaries. This pamphlet offers meaningful insight on how to build healthy boundaries. So much of recovery from codependence has to do with figuring out where we stop and another person begins. Growing up in an alcoholic or

dysfunctional family often prevents us from creating healthy physical, emotional, intellectual, and spiritual boundaries. This pamphlet offers meaningful insight on how to build healthy boundaries. Part culinary memoir and part travelogue, Carole Bumpus gathered this compilation of intimate interviews, conversations, stories, and traditional family recipes (*cuisine pauvre*) in the kitchens of French families as she traveled throughout the countryside. Travel with her through Champagne caves/wineries and historic cathedrals, local farmers' markets, ancient potters' guilds, and restaurant kitchens with wood-fire ovens. Learn how to make homemade Spinach-stuffed Tortellini with Bolognese Sauce from the Champagne region, Crêpes and Watercress-stuffed Ravioli from the Lorraine, and Baekeofe and Kugelhopf from the Alsace. "Go blind" from the family stock of Eau de Vie liqueur and be treated to tales of foraging for snails for the infamous and now extinct Escargots Festival. And, on a somber note, listen to accounts of families forced from their communities during the German occupation of WWII in the Alsace and Lorraine, only to continue to struggle for survival after finally making their way home. This book is a compilation of stories about making ends meet; about people being grateful for all they had, even when they had almost nothing; about the sharing of family jokes and laughter; and about family trials and triumphs. This book is about people savoring the life they have been given.

Provides a theoretical base for family practice that explains familial dynamics and provides guidelines for effective intervention based on four basic levels of need: basic survival issues; a need for structure, limits, and safety; problem-focused issues; and family and personal growth issues. The f Why does divorce cause so much strain and long-term distress for children of all ages? Andrew Root, a recognized authority on youth ministry and a child of divorce himself, explains that divorce causes children to question their core identity. Since a child is the product of the union of a mother and father, when that union ends, he or she experiences a baffling sense of loss of self--a loss of his or her very sense of being. Root redirects efforts for assisting children of divorce to first address this fundamental experience. This unique book examines the impact of divorce not only from a theological and spiritual perspective but also from a young person's perspective. It will benefit those who have experienced divorce and those who minister to children of divorce. This comprehensive, yet user-friendly survey of the field of marriage and family therapy takes a holistic view and looks at people within the context of their environment. The systemic-cybernetic framework helps readers understanding people and families in context. The text divided into three sections including "The Systemic Framework," "The Practice of Family Therapy," and "The Systemic Practitioner" includes historical information, current developments, and

ongoing debates. Various family and developmental theories are integrated into a "dynamic process model" for viewing and understanding family interactions and relationships. The family therapy models considered include psychodynamic, natural systems, experiential, structural, communications, strategic, and behavioral/cognitive as well as several postmodern approaches. Within the context of practice, Assessment; Intervention; Training/Supervision; Research; and Epistemological Challenges are described and discussed. Inevitably divorce is difficult for children. There is no way around this. But even the very youngest children need a way to understand and make sense of how their family is changing. Author Emily Menendez-Aponte offers a starting point to begin explaining divorce to your child. She helps explain to children that divorce is not their fault, that it's normal to feel upset and scared and confused, and that it's good to get all these feelings out. Making schooling a community endeavor! Because schools are the heart and soul of a community, educational leaders have a responsibility to bring the community into the school, as well as to make the school a part of the surrounding community. With articles from leading authorities and practitioners, this volume examines how educators can build family and community partnerships for school success. Educational leaders will find: Contributions from Alan M. Blankstein, Pedro A. Noguera, Mavis G. Sanders, Paul D. Houston, and others

Inspiring and unique perspectives on the interplay of family and community in school success Ideas for engaging families as partners Has your family dinner table become a landing spot for junk mail, homework, and bills? Is scheduled dinnertime in your home 6:00 for mom, 7:00 or later for dad, and . . . are the kids even home tonight or do they have another activity to get to? Because with sports, activities, long hours, and commutes, family dinners seem to have gone the way of the dinosaur . . . And it's time to bring them back--before it's too late! Studies have tied shared family meals to increased resiliency and self-esteem in children, higher academic achievement, a healthier relationship to food, and even reduced risk of substance abuse and eating disorders. Written by a Harvard Medical School professor and mother, Home for Dinner makes a passionate and informed plea to put mealtime back at the center of family life and supplies compelling evidence and realistic tips for getting even the busiest of families back to the table. Parents looking to make family dinnertime more than just a fantasy will find inside this invaluable, life-saving resource highly relatable stories, new research, recipes, and friendly advice to help them:

- Whip up quick, healthy, and tasty dinners
- Get kids to lend a hand (without any grief!)
- Adapt meals to the needs of everyone--from toddlers to teens
- Inspire picky eaters to explore new foods
- Keep dinnertime conversation stimulating
- Reduce tension at the table
- And

moreBoth parents and kids need a family mealtime environment that allows them to unwind and reconnect from the pressures of school and work. More than just offering them nutrition and energy for another intense day of jet-setting about, the incalculable family therapy provided for all will far surpass the small sacrifices it took to gather around the table for a short time. There are so many different types of families, and THE FAMILY BOOK celebrates them all in a funny, silly, and reassuring way. Todd Parr includes adopted families, step-families, one-parent families, and families with two parents of the same sex, as well as the traditional nuclear family. His quirky humor and bright, childlike illustrations will make children feel good about their families. Parents and teachers can use this book to encourage children to talk about their families and the different kinds of families that exist. Understanding divorce--a healing drawing and activity book for kids Unlike other divorce books for kids, My Family is Changing helps your child (age 5-7) process what's happening through sympathetic stories that feature a diverse collection of children. Each story also serves as a starting point for a host of activities and drawing pages that provide a safe space for them to explore and express their feelings. My Family is Changing goes beyond other divorce books for kids, with: Understanding divorce--Help your child deal with some of the new challenges they might face--like separate houses, different weekend activities, and

changing traditions--in a supportive way. 7 Insightful stories--Your child will discover that they aren't alone thanks to comforting stories about other children whose parents are also divorcing. Emotional discovery--Activities like drawing their changing family to making a calendar of things they want to do make this a standout among divorce books for kids. Divorce books for kids should provide tools for kids to not just learn, but also share their feelings--and this book delivers results. Creating memorable feasts for family and friends is one of life's great pleasures: how better to celebrate life and love than to gather at a happy table laden with scrumptious home-cooked food? You don't need to be an expert cook to produce heart-warming dishes that sing with flavour – all that's required is passion, patience and smart preparation well in advance. Jane-Anne Hobbs has created over 90 original, triple-tested recipes designed to take the fuss out of home entertaining and bring smiles to the faces of the people you love. Whether you're planning a relaxed get-together over a homely dish of soup, stew or salad, or a lavish spread with all the bells and whistles, you'll find plenty of inspiring new ideas here, plus top tips for planning and preparing a meal to remember Family is where the heart is. Even though all families are different, home is where your loved ones are! Get ready for kid-approved ideas that celebrate the great outdoors year round! Whether you're building forts or making fresh cider, there's something for every kid and every

season. Each season is full of excitement waiting to be found and Rachel highlights the best of each one with sections for recipes, nature exploration and play, and natural history: In spring, make candied violets, spruce tip ice cream, or paper from wildflower seeds. Craft a kite, weave flower crowns, and make a DIY fairy garden! When summer comes, whip up herb-infused balms, rosewater, and zucchini boats. Host a backyard camp-out, build a nature exploration pack, cast shadow drawings, sail a leaf-boat, and master giant bubbles. As the days cool for autumn, brew mulled cider, make spiced honey, and discover the deliciousness of homemade apple sauce. Plant bulbs for next year's flowers, create an autumn rainbow, or craft a felted acorn necklace. Cozy up in winter with homemade maple candy, an herbal tea blend, and learn how to set out pine cone bird feeders. Build a snow fort or try some winter stargazing followed by making paper stars. (Or for those in warmer climates, make an ice lantern!) Unique celebrations throughout give the entire family a reason to gather, from winter bonfires and Solstice celebrations to maple tappings and beeswax candle dippings! From one of the world's leading experts, this absorbing narrative history of the changing structure of modern families shows how children can flourish in any kind of loving home. The past few decades have seen extraordinary change in the idea of a family. The unit once understood to include two straight parents and their biological children has expanded

vastly—same-sex marriage, adoption, IVF, sperm donation, and other forces have enabled new forms to take shape. This has resulted in enormous upheaval and controversy, but as Susan Golombok shows in this compelling and important book, it has also meant the health and happiness of parents and children alike. Golombok's stories, drawn from decades of research, are compelling and dramatic: family secrets kept for years and then inadvertently revealed; children reunited with their biological parents or half siblings they never knew existed; and painful legal battles to determine who is worthy of parenting their own children. Golombok explores the novel moral questions that changing families create, and ultimately makes a powerful argument that the bond between family members, rather than any biological or cultural factor, is what ensures a safe and happy future. *We Are Family* is unique, authoritative, and deeply humane. It makes an important case for all families—old, new, and yet unimagined. Any agenda for family research in the 1990s must take seriously a contextual approach to the study of family relationships. The editors and contributors to this volume believe that the richness in family studies over the next decade will come from considering the diversity of family forms -- different ethnic groups and cultures, different stages of family life, as well as different historical cohorts. Their goal is to make more explicit how we think about families in order to study them and understand them. To illustrate

the need for diversity in family studies, examples are presented from new and old families, majority and minority families, American and Japanese families, and intact and divorcing families. This variety is intended to push the limits of current thinking, not only for researchers but also for all who are struggling to live with and work with families in a time when family life is valued but fragmented and relatively unsupported by society's institutions. Students and researchers interested in family development from the viewpoint of any of the social sciences will find this book of value. Family Caregiving in the New Normal discusses how the drastic economic changes that have occurred over the past few years have precipitated a new conversation on how family care for older adults will evolve in the future. This text summarizes the challenges and potential solutions scientists, policy makers, and clinical providers must address as they grapple with these changes, with a primary focus given to the elements that may impact how family caregiving is organized and addressed in subsequent decades, including sociodemographic trends like divorce, increased participation of women in the workforce, geographic mobility, fewer children in post-baby boom families, chronic illness trends, economic stressors, and the current policy environment. A section on the support of caregivers includes technology-based solutions that examine existing models, personal health records, and mobile applications, big data issues, decision-

making support, person-centered approaches, crowd-sourced caregiving such as blogs and personal websites that have galvanized caregivers, and new methods to combine paid and unpaid forms of care. Provides a concise "roadmap" of the demographic, economic, health trends, and policy challenges facing family caregivers Presents potential solutions to caregiving so that scientists, policymakers, and clinical providers can best meet the needs of families and communities in the upcoming decades Includes in-depth, diverse stories of caregivers of persons with different diseases who share perspectives Covers person-centered care approaches to family caregiving that summarize effective community-based services of psychosocial intervention models Examines how existing efficacious models can more effectively reach and serve individual families Join Carole Bumpus as she continues the culinary journey of Book One in Searching for Family and Traditions at the French Table, with her incomparable guide, Josiane, as they head north from Paris to Nord-Pas-de-Calais, Normandy, and Brittany, then drop into the Loire Valley before ending in the Auvergne. Sample family favorites and regional delights such as Flemish Potjevlesh, Algerian-influenced chicken tagine, moules (mussels) in cider and cream, salt-encrusted Lamb Grevin, Far Brêton, and Pâté de Pomme de Terre. Enjoy the music and antics of local festivals like La Bande de Pecheur (Gang of Fisherman), Feast of St. John, and the Blessing of the

Fleet. Discover the wonder of troglodyte caves, wineries, and truffle farms in the Loire Valley. Then travel to Josiane's family home, where you, too, can discover why food and family time are considered sacred in the Auvergne. And, all along the route, witness the impact WWI and WWII on the families profiled. Even seventy-five years later, the legacy of war remains—and yet, incredibly, the gift that each generation has handed down has been gratitude and a deep understanding of the importance of family. A compilation of personal stories, memorable moments, family secrets, and mouth-watering recipes, this French culinary travelogue is sure to find a prized place on the bookshelf of readers who love France—its food, its people, and its history.

Key strategies for running a family office for fund managers Understanding the basics of the family office industry is essential if you want to succeed in establishing a successful fund for a wealthy family. Includes investment criteria, presented as a roadmap showing how several family offices are

allocating capita Outlines strategies for fund managers of all types, including mutual funds, real estate funds, private equity, and hedge funds on raising capital in this field Features interviews with the most famous and sought after family offices to give real-life examples of successful family offices in action A comprehensive and reliable resource, The Family Office Book details exactly how family offices are choosing investment managers and why, and how, to break into the industry. Kids get bored, no matter what the occasion. This book remedies that with fun and unique ideas that will add excitement to any gathering and keep them off the phone. Kids get bored, no matter what the occasion. 1,001 Ways to Celebrate Family remedies that with fun and unique ideas that will add excitement to any gathering and keep them off the phone. And as any parent knows, a grumpy child can make for a grumpy adult; these fun, educational, and unplugged activities—from games to play in the car to scavenger hunts and ideas for trying new foods—will keep everyone happy. No matter if you are going camping, visiting family, hosting a family reunion, or just looking to make your next car ride more exciting, this book drives home the importance of making each and every day a family day, without screen time. Family Studies is a key area of policy, professional and personal debate. Perhaps precisely because of this, teaching texts have struggled with how to approach this area, which is both 'familiar' and also contentious

and value laden. This innovative and reflective book deals with such dilemmas head-on, through its focus on family meanings in diverse contexts in order to enhance our understanding of everyday social lives and professional practices. Drawing on extracts and research by leading authors in the field of family studies, *Understanding Family Meanings* provides the reader with an overview of the basic concepts and theories related to families using readings with questions and analysis to encourage reflection and learning. Published in association with The Open University, the book centralises the question what is 'family' and focuses on family meanings as the key underpinnings for academic study and professional training. It explores the shifting and subtle ways in which individuals, researchers, policy-makers and professionals make sense of the idea of 'family' and in doing so considers issues of power, inequality and values which are integral to any understanding of family meanings. Audio discussions with leading authorities in the field are also available online to enhance the content and key concepts of the book. It therefore provides an excellent foundation for any module in family studies, as well as all professional training modules that include attention to families and close relationships, and for further learning in the area of families and relationships. The founders of a lauded family advocacy organization present a guide for reclaiming family life, even in the most hectic households. In the past twenty years,

children's free time has declined by twelve hours a week, time spent on structured sports activities has doubled, family dinners are down by a third, and the number of families taking vacations together has decreased by 28 percent. When William J. Doherty and Barbara Z. Carlson observed this trend in their own families and community, they took action and founded Family Life First, an organization committed to helping parents reclaim family time. Doherty and Carlson offer realistic ways to regain valuable family connections and embark on more balanced, meaningful relationships at home. Drawing on their years of hands-on experience, they share tips for time-crunched parents on how to: --get everyone to sit down for family meals -- make bedtime a meaningful end to the day --plan family outings and vacations --make time for your marriage More than just a time-management manual, this book delves into the issues that lie at the heart of all family-related choices, revealing innovative ways to address scheduling conflicts, competitiveness, and the many other situations that cause daily angst. Offering a new perspective on a fraying institution, Putting Family First restores a sense of fulfillment, fun, and security to the family once again. Celebrates the many different ways that families show their love for one another, in a text with a mirror and fill-in family tree. Are there children in your life who are experiencing the pain of their parents' divorce? This book will help give advice and

information in a gentle and sensitive way. It will help children face their fears, worries and questions when the family is going through a break-up. Parents, teachers, and gift givers will find: language that is simple, direct, and easier for younger children to understand information about a divorce in my family a helpful book written by a psychotherapist and counselor a whole series of books for children to explore emotional issues The A First Look At series promotes positive interaction among children, parents, and teachers, and encourage kids to ask questions and confront social and emotional questions that sometimes present problems. Books feature appealing full-color illustrations on every page plus a page of advice to parents and teachers. The instant New York Times bestseller! * One of Behavioral Scientist's Notable Books of 2021 "Emily Oster dives into the data on parenting issues, cuts through the clutter, and gives families the bottom line to help them make better decisions." –Good Morning America "A targeted mini-MBA program designed to help moms and dads establish best practices for day-to-day operations." -The Washington Post From the bestselling author of Expecting Better and Cribsheet, the next step in data driven parenting from economist Emily Oster. In The Family Firm, Brown professor of economics and mom of two Emily Oster offers a classic business school framework for data-driven parents to think more deliberately about the key issues of the elementary years: school, health,

extracurricular activities, and more. Unlike the hourly challenges of infant parenting, the big questions in this age come up less frequently. But we live with the consequences of our decisions for much longer. What's the right kind of school and at what age should a particular kid start? How do you encourage a healthy diet? Should kids play a sport and how seriously? How do you think smartly about encouraging children's independence? Along with these bigger questions, Oster investigates how to navigate the complexity of day-to-day family logistics. Making these decisions is less about finding the specific answer and more about taking the right approach. Parents of this age are often still working in baby mode, which is to say, under stress and on the fly. That is a classic management problem, and Oster takes a page from her time as a business school professor at the University of Chicago to show us that thoughtful business process can help smooth out tough family decisions. *The Family Firm* is a smart and winning guide to how to think clearly--and with less ambient stress--about the key decisions of the elementary school years. Parenting is a full-time job. It's time we start treating it like one. Offers instructions or "recipes" for creating new family rituals or traditions, in categories such as "holidays," "family festivities and ceremonies," and "rites of passage." This fun, inclusive board book celebrates the one thing that makes every family a family . . . and that's LOVE. Love is baking a special

cake. Love is lending a helping hand. Love is reading one more book. In this exuberant board book, many different families are shown in happy activity, from an early-morning wake-up to a kiss before bed. Whether a child has two moms, two dads, one parent, or one of each, this simple preschool read-aloud demonstrates that what's most important in each family's life is the love the family members share. Leading innovators in progressive addiction treatment outline a science-based program for overcoming addiction-related problems, demonstrating how to effectively use positive reinforcement and motivational and behavioral strategies. (Self-Help) "The Simpler Family" shows families how to make their dreams come true by making smart choices about the way they spend their time and money. Its proven, real-life strategies help families increase their free time together, reduce stress on parents and children, improve parents' work/life balance, increase healthfulness and save time and money. What if we could do better than the family? We need to talk about the family. For those who are lucky, families can be filled with love and care, but for many they are sites of pain: from abandonment and neglect, to abuse and violence. Nobody is more likely to harm you than your family. Even in so-called happy families, the unpaid, unacknowledged work that it takes to raise children and care for each other is endless and exhausting. It could be otherwise: in this urgent, incisive polemic, leading feminist

critic Sophie Lewis makes the case for family abolition. *Abolish the Family* traces the history of family abolitionist demands, beginning with nineteenth century utopian socialist and sex radical Charles Fourier, the Communist Manifesto and early-twentieth century Russian family abolitionist Alexandra Kollontai. Turning her attention to the 1960s, Lewis reminds us of the anti-family politics of radical feminists like Shulamith Firestone and the gay liberationists, a tradition she traces to the queer marxists bringing family abolition to the twenty-first century. This exhilarating essay looks at historic rightwing panic about Black families and the violent imposition of the family on indigenous communities, and insists: only by thinking beyond the family can we begin to imagine what might come after. Every family is different. But in the end, all families have the same core values of love, kindness and acceptance. The real question is... what does family mean to you? Small, big, colorful and fun - a family can be so many things. Every family is special, and this book celebrates all forms of living together: no one is left out. "Family Means..." is a charming and heart-warming children's picture book about family, diversity, inclusion and the joy of everyday life. The simple and easy-to-understand sentences are perfect for little readers and make this book ideal for story time or nighttime reading. The beautifully hand-drawn color illustrations depict family life and teach children that while families may look and sound different, we are

all united in love. There is even a bonus activity section where you can draw your family and write your own answer to the question: What does family mean to you? So, are you ready to find out the true meaning of family? Open the book and let's get started! Do you feel that your family is not what it used to be, or what it has the potential to be? Do you worry that the parenting decisions you're making today may be scarring your child for life? Do you sometimes feel you are in a tug-of-war with the world over who will shape your child's values and beliefs? With *Family First: Your Step-by-Step Plan for Creating a Phenomenal Family*, Dr. Phil offers a new classic on family life—and gives parents real answers and a plan for being the most positive and effective parents possible. Starting right now, you can begin to make realistic choices and take day-to-day actions that can make your family phenomenal. You must decide that you will lead your family with strength and love and that peace and joy are not just for the people next door or on TV. They're for your family. In *Family First*, Dr. Phil gives it to parents straight: even in this fast-paced world your family should be the center of your life and your child's life. Parenting is the most important and noble act you will ever undertake, yet American families are threatened like never before from the inside as well as the outside—many of us fight too much, don't get involved enough in our children's lives, or get bogged down in life's daily struggles instead of keeping

our eye on the big picture of our family's well-being. Dr. Phil has been working with families for over twenty-five years to help them repair the fissures that have fractured their home lives. In *Family First*, he provides a proven action plan to help parents determine the strengths and weaknesses of their parenting style. His seven tools for purposeful parenting cover the most important elements for any parent: parenting for success—for the purpose of raising cooperative, caring, and competent children. Exercises, scripts, assessments, solutions for specific problems, and precise directions for implementing the steps you need to take are all included in this landmark work. Dr. Phil shows parents how to make changes now—how to put a stop to your children's tantrums; talk to them about peer pressure or self-esteem; instill values like integrity, honesty, and respect for other people; and bring order back to your house. If you want your child to have a happy, fulfilled life, you must open your eyes to the crucial role you play in his or her development. Most importantly, Dr. Phil's new book offers you and your family hope—for a phenomenal home life now, and a productive, fulfilling future for your children. As Dr. Phil says, you are not just raising children, you are also raising adults, and everything you do today impacts what kind of adult your child will become. You are building the future. Little Pup's wolf family is on their way to a special reunion—with lots of cousins, games, roasting marshmallows, and fun! As the

young wolf thinks about different kinds of families, it's the perfect opportunity for Mama and Papa to teach their inquisitive child about the families that God brings together. Some families are big and others are small, some are led by grandparents or just one parent, and some families include adopted little ones– yet each family is truly special. Even the members of Little Pup's pack make up an important role in his family, although they sometimes pester him. Papa gently reminds his son... “We need to love the family God gave us.” A heartwarming and colorful addition to the best-selling God Gave Us series, this tale will delight young hearts and help them understand how families of all types reflect God's unconditional love.
