In 1845, an estimated 2,500 emigrants left Independence and St. Joseph, Missouri, for the Willamette Valley in what was soon to become the Oregon Territory. It was general knowledge that the route of the Oregon Trail through the Blue Mountains and down the Columbia River to The Dalles was grueling and dangerous. About 1,200 men, women, and children in over two hundred wagons accepted fur trapper and guide Stephen Meek's offer to lead them on a shortcut across the trackless high desert of eastern Oregon. Those who followed Meek experienced a terrible ordeal when his memory of the terrain apparently failed. Lost for weeks with little or no water and a shortage of food, the Overlanders encountered deep dust, alkali lakes, and steep, rocky terrain. Many became ill and some died in the forty days it took to travel from the Snake River in present-day Idaho to the Deschutes River near Bend, Oregon. Stories persist that children in the group found gold nuggets in a small, dry creek bed along the way. From 2006 to 2011, Brooks Ragan and a team of specialists in history, geology, global positioning, metal detecting, and aerial photography spent weeks every spring and summer tracing the Meek Cutoff. They located wagon ruts, gravesites, and other physical evidence from the most difficult part of the trail, from Vale, Oregon, to the upper reaches of the Crooked River and to a location near Redmond where a section of the train reached the Deschutes. The Meek Cutoff moves readers back and forth in time, using surviving journals from members of the 1845 party, detailed day-to-day maps, aerial photographs, and descriptions of the modern-day exploration to

document an extraordinary story of the Oregon Trail. A practical handbook for people who want to be safe and do something. Racial profiling does happen. And while cases where victims find themselves looking down the barrel of a policeman's gun make the six o'clock news, dozens of less extreme, yet troubling, examples occur every day. Cabs that whiz by only to be seen stopping for "safer"-looking people just up the block; being asked for multiple pieces of identification when making purchases with credit cards; being followed around a department store by salespeople and security while never being asked if they need any assistance; being detained for hours and extensively searched in an airport or train station--Driving While Black clearly defines the system officially known as CARD (class, age, race, dress) and offers advice about how to handle potentially life-threatening situations with the police, as well as recourse for readers who suspect their civil rights have been denied due to racial profiling. A book written to save lives, Driving While Black is not just for people of color, but for anyone who likes to wear a baseball cap, baggy jeans, sneakers, and a tee shirt and finds they are often treated like a "suspect." A program designed to teach children how to make healthy life choices. Macmillan/McGraw-Hill Health & Wellness Grade 6 contains quick and easy lessons that allow students to practice and apply skills. Out of Time features indicate core content when time is limited and Study Guides enable students to work through lessons independently. Sensitive issues are addressed in the Your Body book and videos. Third-grader Zeke Meeks already has two sisters,

so he is bitterly disappointed when his new neighbor proves to be a girl--can Charlie change his mind and prove to him that boys and girls can play together? A program designed to teach young people how to make healthy life choices. Your Teacher Edition offers a complete and easy to follow teaching plan to help make the most effective use of instructional time. Includes "Quick Start" - a summary of lesson instruction when pressed for time Offers teaching tips and suggestions for all types of health instructors (self contained classrooms; nurse/health instructor; physical education teacher) Provides interdisciplinary connections with a special emphasis on reading and writing Single volume, spiral bound book This book tackles the most common challenges that medical students experience that lead to burnout in medical school by carefully presenting guidelines for assessment, management, clinical pearls, and resources for further references. Written by national leaders in medical student wellness from around the country, this book presents the first model of care for combating one of the most serious problems in medicine. Each chapter is concise and follows a consistent format for readability. This book addresses many topics, including general mental health challenges, addiction, mindfulness, exercise, relationships and many more of the important components that go into the making of a doctor. Medical Student Well-being is a vital resource for all professionals seeking to address physician wellness within medical schools, including medical students, medical education professionals, psychiatrists, addiction medicine specialists, hospitalists, residents, and

psychologists. "A very valuable and practical guide for any woman who has lost her husband due to an untimely death. Kristin Meekhof's journey is both inspiring and courageous and something we can all learn from." —Dr. Deepak Chopra An inspiring, accessible, and empowering guide for how to navigate the unique stresses and challenges of widowhood and create a hopeful future. When Kristin Meekhof lost her husband to cancer, she discovered what all widows learn: the moment you lose your partner, you must make crucial decisions that will impact the rest of your life. But where do you begin? This inspiring book shows grieving widows what to expect and how to deal with the challenges of losing a life partner. From immediate issues like finances, estates and medical bills to long-term hurdles such as single parenthood, being a widow in the workplace and navigating social situations by yourself, this book guides widows through the tumultuous and painful first five years to a more hopeful future. Administrators in medical, nursing and health science programs are witnessing a substantial increase in the number of students with disabilities entering their programs. Concurrently, the benefits of diversity in healthcare are becoming increasingly apparent and

important. A commitment to disability inclusion for qualified students should be a high-level goal of nursing, medical, and other health science programs. To support this goal, leaders in these areas must develop robust programs and an understanding of the needs of qualified students with disabilities in the health sciences and accompanying best practices for inclusion. This book of case studies is the perfect companion to Meeks' and Neal-Boylan's recently-published book Disability as Diversity. It contains ten cases related to medicine and nursing but with significant relevance to other health professions. Each case is preceded by an introduction with instructions on how to use it. The cases are followed by discussion questions and perspectives from the student, faculty and disability resource professional viewpoints. The cases are then deconstructed with reference to the book Disability as Diversity, relevant citations from the literature and case law. Developed by some of the most notable researchers and clinicians in the field this case book serves as truly invaluable resource for deans, program directors, faculty and student affairs personnel. Offices can use these cases as a platform for critical discussion and training about disability processes, policies and decision-making regarding accommodations and inclusion. Zeke must win the science fair prize money to keep Grace from ripping his face off. Help your students take a serious look at good health with this high school health textbook. Organized into 70 flexible lessons correlated to the National Health Standards, this program covers such topics as Alcohol, Tobacco, and other Drugs; Mental and

Emotional Health; Injury Prevention and Personal Safety; Nutrition and Personal Health; and Physical Activity. Flexible. Skills based. Engage your students with open discussion-based health lessons. Emphasis on developing health skills with activities such as Using Life Skills, Real-Life Application, Responsible Decision Making, and Health Literacy. 70 flexible lessons provided in multiple formats: print student edition, online student edition, and StudentWorks Plus CD-ROM (contains student edition and audio). Partnership with POLAR Electro Inc. provides state-of-the-art activities booklet and gives you the opportunity to receive discounts on heart rate monitors. Zeke Meeks's little sister has been annoying him with Princess Sing-Along forever, but it's gotten even worse in this laugh-out-loud e-book. After he's guilted into going to a Princess Sing-Along concert for Mia's birthday, Zeke isn't sure he can handle the screaming kids and ridiculous songs. Could things get any worse? Only if his friends at school find out! • Reflections on current affairs through the lens of history • A resource for social justice and resilience

Ida B. Wells was a powerful churchwoman and witness for justice and equity from 1878–1931. Born enslaved, her witness flowed through the struggles for justice in her lifetime, especially in the intersections of African Americans, women, and those who were poor. Her life is a profound witness for faith-based work of visionary power, resistance, and resilience for today's world, when the forces of injustice stand in opposition to progress. These are exciting and dangerous times. Boundaries that previously seemed impenetrable are now being crossed.

This book is a guide for the current state of affairs in American culture, enlivened by the historical perspective of Wells' search for justice. The authors are an African-American woman and a child of white supremacy. Both have dedicated themselves to working, writing, and developing ministries oriented toward justice, equity, and mercy. This book can be used in all settings, but most especially in churches (pastors and other church leaders, study groups), seminaries, and universities. Zeke's teacher is at it again. This time, Mr. McNutty is making the whole class be in a talent show. Normally, Zeke wouldn't worry about having a great act, but something amazing is at stake: the winner of the talent show will get advice from reality TV star, Brassy Glass. Zeke can't sing, he can't dance, and he really can't juggle. So what can he possibly do to win a moment with his hero? A year had passed since Ben Holiday bought the Magic Kingdom from the wizard Meeks, who had set a series of pitfalls against him. Ben survived, by the aid of three loyal friends: Questor Thews, and ill-trained wizard; Abernathy, a talking dog, the Court Scribe; and the lovely Willow, who sometimes had to be a tree. Bu ben had been troubled by dreams of disaster to his former partner, Miles Bennett. Yet when he returned to Earth, Ben found Miles doing splendidly. Unknown to Ben, the dreams had been a trap by Meeks, who had returned to the Magic Kingdom as a tiny insect hidden in Ben's clothing. That first night back in Landover, Ben awoke to see Meeks gloating over him. claiming to have the medallion that could summon the mysterious knight-protector, the Paladin, and that he had cast a spell

to witch appearances with Ben. Ben found himself outcast, no longer recognized by any friend, though all his powerful enemies seemed to know him. Without the medallion, he couldn't seek the help of the Paladin against Meeks. There was only the prism cat—whatever that might be! And where was Willow—and the mysterious black unicorn she'd set out to find? It is Television-Turnoff Week, and Zeke and his friends are wondering what they will do with their time without their favorite programs and videogames. AN INSTANT NEW YORK TIMES BESTSELLER

An edge-of-your-seat thriller about a group of retired Green Berets who come together to save a former comrade—and 500 other Afghans—being targeted by the Taliban in the chaos of America's withdrawal from Afghanistan. In April, an urgent call was placed from a Special Forces operator serving overseas. The message: Get Nezam out of Afghanistan now. Nezam was part of the Afghan National Army's first group of American-trained commandos. He passed through Fort Bragg's legendary Q course and served alongside the US Special Forces for over a decade. But Afghanistan's government and army are collapsing, and Nezam is getting threatening texts from the Taliban. The message reached Nezam's former commanding officer, retired Lt. Col. Scott Mann, who can't face the idea of losing another soldier in the long War on Terror. He sends out an SOS to a group of Afghan vets (Navy SEALs, Green Berets, CIA officers, USAID advisors). They all answer the call for one last mission. Operating out of basements and garages, Task Force Pineapple organizes an escape route for Nezam and gets him into

hiding in Taliban-controlled Kabul. After many tense days, he braves the enemy checkpoints and the crowds of thousands blocking the airport gates. He finally makes it through the wire and into the American-held airport thanks to the frantic efforts of the Pineapple express, a relentless Congressional aide, and a US embassy official. Nezam is safe, but calls are coming in from all directions requesting help for other Afghan soldiers, interpreters, and at-risk women and children. Task Force Pineapple begins all over again—and ends up rescuing 500 more Afghans from Kabul in the three chaotic days before the ISIS-K suicide bombing. Operation Pineapple Express is a thrilling, suspenseful tale of service and loyalty amidst the chaos of the US withdrawal from Afghanistan. Administrators and faculty in medical, nursing and health science programs are witnessing a substantial increase in the number of students with disabilities entering their programs. Concurrently, the benefits of diversity in healthcare are becoming increasingly apparent and important. Provider-patient concordance is a known mechanism for reducing health care disparities. By developing a workforce that mirrors the patient population, we can appropriately inform disability care, reducing health care disparities while embracing the tenets of the Americans With Disabilities Act (ADA), namely equal opportunity, full participation, independent living, and economic self-sufficiency for qualified individuals with disabilities. One in five individuals will experience disability at some point in their lives, making this the largest minority in the US. A commitment to disability inclusion for qualified students

should be a high-level goal of nursing, medical, and other health science programs. To support this goal, leaders in these areas must develop robust programs and an understanding of the best practices for inclusion. This first-of-its-kind title is designed to help deans, program directors, faculty, student affairs personnel and disability resource professionals thoughtfully plan for the growing population of health-care professionals with disabilities. The content helps stakeholders contextualize disability inclusion in health-care education as a function of social justice and a mechanism of reducing health care disparities for patients. It offers pragmatic advice, grounded in research, best practice, and case law to address the highly nuanced approach to determining and implementing accommodations in a high-stakes clinical environment. Disability as Diversity connects the moving parts necessary to ensure equal access for qualified students and provides a blueprint for crafting policy, proactive messaging, improving climate, adhering to accreditation standards, addressing licensing and board exams, responding to student failure, all while remaining compliant with the Americans with Disabilities Act (ADA), and applicable Federal regulations. This text provides educators with the perspectives and skills they need to bring disability inclusion to the forefront of health education. Machine generated contents note: I. Fundamentals 1. When George Best, a dark-haired skinny teenager from Belfast, made his United debut in the autumn of 1963, he was joining a club still recovering from the horrors of Munich. Among his team-mates were goalscorer supreme Denis Law and England midfielder Bobby Charlton. Together they would combine to help United to win two league titles and a long-awaited European Cup as the Reds came to personify all that was most exciting about the Swinging Sixties. By 1968, all three men would have been honoured as European Footballer of the Year - the only time three winners of that award have lined up in the same side. In David Meek's compelling portrait of the United Trinity, he not only reveals their different characters and what made them so successful on the pitch, he also speaks to many of their team-mates to find out what it was like playing in the same side and researches contemporary reports to assess how they were viewed at the time. Having reported on their entire careers together, Meek has a unique insight into what made Best, Law and Charlton stand out as the truly special players they were. Never HIGHLIGHT a Book Again!
