She was a painting by Titian; she was queen of the Holy Roman Empire, and 500 years ago an audacious sisterhood buried a secret in her name. Lisbon 2020: a pair of forensic archaeologists discover a strange skull buried with the original occupant inside a fifteenth-century tomb. That same night, one archaeologist is murdered and the skull stolen, leaving the surviving archaeologist to dispatch a plea for help. Enter Phoebe McCabe and the Agency of the Ancient Lost and Found, now assigned to help a headless client become reunited with his skull. Yet, why would anyone steal a centuries-old cranium in the first place? But the unfolding truth is more baffling than anyone could have imagined. The missing skull may hold the key to centuries of European intrigue, religious fanaticism, and political upheaval. As Phoebe digs, layers of royal plots emerge, along with tales of persecution and an underground resurgence of a brotherhood so virulent that it threatens the world to this very day. Yet, even in the fifteenth century, the sect had its enemies, and Phoebe needs to find the clues those long-dead allies left behind. For that, she must look in surprising places. As she races to locate the skull she calls on instinct, intuition, art, and the help of an ancient sisterhood. Somewhere in the past lies the key to save the future and it will take every resource Phoebe possesses to pull the pieces together in time. From the misty forests of Portugal to the castle promontories of Spain, Phoebe is pitched against a breed of fanatic it will take all her skill to beat. Two powerful shifters: one of feathers and one of flame. Hailey is torn. Everything she thought she knew about her life has been turned on its head, and she no longer knows where she belongs. centuries to find his mate, and he will let nothing, not even an unimaginable evil, get in his way. ** Paranormal Shapeshifter Romance** 1 The picturesque vistas and apparent stability of Switzerland have made it an elusive subject for contemporary photography. Over a five-year period (2014-2019), Cole found a distinctly new way to look at a country that has been the quintessence of tourist experience for almost two centuries. Fernweh muses on the German word for a longing to be elsewhere. Cole's meditative and scrupulously composed work, made with colour film, is evocative of the hidden history of the Alpine nation as well as of its highly curated terrain. Returning to Switzerland year after year, Cole shares the patience and mild palette of luminaries of contemporary European photography - but the constructivist tension in these images is all his own. With photographs shot in every corner of the country - from Vaud to Graubünden to Lugano - Fernweh creates a vision of Switzerland that, though largely devoid of human presence, is rich in human traces; none more so than Cole's own distinct way of seeing. -- An inspirational pseudo-memoir about survival, finding joy, and throwing away life's expectations. find the strength to battle and survive while learning how to redefine what a happy, successful life means? Did you know that the turtle's top shell is an outgrowth of bone, and the scales on it are made of the same substance that forms our finger nails? Or that its nostrils are placed high on its head so that it can breathe without raising its head far above water? This fascinating book reveals these, and many little-known details about the turtle's body, inner working, geographical adaptations, genealogy, history, and endangered future. Thomas Piketty's *Capital in the Twenty-First Century* showed that capitalism, left to itself, generates deepening inequality. In this audacious follow-up, he challenges us to revolutionize how we think about ideology and history, exposing the ideas that have sustained inequality since premodern times and outlining a fairer economic system. As I was seated in remembrance and contemplation one night, in front of me appeared a great stag, shining and shimmering in whiteness, and there was a concentration of brilliant white light above its head. The stag was some feet away and was moving toward me. As it got closer, I could see that the white light on its head was emanating from a flaming brand, a torch, lit, glowing with brilliant white star-like light. The flaming brand, 'qabas' in Quranic Arabic, was as if a projection from the top of its head. The stag came straight toward me, approached me until it was so near I could have reached out and touched it, and then the flaming brand that was on its head, was suddenly but so naturally, held by it in its mouth. The stag bowed its head and placed this flaming brand, this qabas at my feet, and disappeared. As this happened the following verse flashed through my mind, and I knew I had been given permission to spread the teachings that are coming to me, and I was given the name under which to do so; It is 'Qabas', a flaming brand; a torch for warmth and a light for guidance.

 When he saw a fire

A sweeping novel about the extraordinary woman who captured Napoleon's heart, created a dynasty, and changed the course of history--from the New York Times bestselling author of The Traitor's Wife, The Accidental Empress, and Sisi. As the French revolution ravages the country, Desiree Clary is faced with the life-altering truth that the world she has known and loved is gone and it's fallen on her to save her family from the guillotine. A chance encounter with Napoleon Bonaparte, the ambitious and charismatic young military prodigy, provides her answer. When her beloved sister Julie marries his brother Joseph, Desiree and Napoleon's futures become irrevocably linked. Quickly entering into their own passionate, dizzying courtship that leads to a secret engagement, they vow to meet in the capital once his career has been secured. But her newly laid plans with Napoleon turn to sudden heartbreak, thanks to the rising star of Parisian society, Josephine de Beauharnais. Once again, Desiree's life is turned on its head. Swept to the glittering halls of the French capital, Desiree is plunged into the inner circle of the new ruling class, becoming further entangled with Napoleon, his family, and the new Empress. But her fortunes shift once again when she meets Napoleon's confidant and star general, the indomitable Jean-Baptiste Bernadotte. As the two men in Desiree's life become political rivals and military foes, the question that arises is: must she choose between the love of her new husband and the love of her nation and its Emperor? From the lavish estates of the French Riviera to the raucous streets of Paris and Stockholm, Desiree

finds herself at the epicenter of the rise and fall of an empire, navigating a constellation of political giants and dangerous, shifting alliances. Emerging from an impressionable girl into a fierce young woman, she discovers that to survive in this world she must learn to rely upon her instincts and her heart. Allison Pataki's meticulously researched and brilliantly imagined novel sweeps readers into the unbelievable life of a woman almost lost to history--a woman who, despite the swells of a stunning life and a tumultuous time, not only adapts and survives but, ultimately, reigns at the helm of a dynasty that outlasts an empire. "Children and adults alike will enjoy Nasario's brilliant telling of the events that were part of his growing up. As I read the stories I heard Nasario's voice and I could see clearly the people and places he describes. I was reminded that the stories our grandparents told not only entertained us, they taught us valuable lessons. "The magic of storytelling is still with us. At home or in the classroom, stories such as these will spark the imagination and encourage reading."—Rudolfo Anaya, author of *Bless Me, Ultima*

The popular cuentos that parents and grandparents in rural New Mexico once upon a time told their children are a rich source of the folklore of the region and offer satisfying entertainment. In this collection of bilingual stories about the Río Puerco Valley, where Nasario García grew up, he shares the traditions, myths, and stories of his homeland. He recounts stories of the evil eye and rooster racing, the Wailing Woman and the punishing of the santos. Preceding each tale is García's brief explanation of the history and culture behind the story. Richard Rich rose from 16th century landed gentry to become the Lord Chancellor of England. His absolute loyalty was to the reigning monarchs he served: King Henry VIII, King Edward VI, Queen Mary I and Queen Elizabeth I. All others, except his family, were expendable. His fellow courtiers: Sir Thomas More, Lord Chamberlain Thomas Cromwell, Archbishop Thomas Cranmer among others, wished to thwart the desires of the monarch.

They lost their lives. When members of the powerful Percy, Seymour, Dudley and Howard families moved to wrest power from the monarchs, many of them lost their heads. Richard 1st Baron Rich of Leighs was instrumental in protecting all of the monarchs from treason wherever he found it. Baron Rich is now 71 years old and nearing death at his Rochford manor. His eldest daughter, the faithful Joan, has spent her life caring for the extensive Rich estates and her 16 siblings. She convinces Rich to speak to her of his life's memories. She knows many notable figures from his years in power are writing memoirs and histories of the time and wants to record her father's own words. Rich agrees to talk but his words soon discomfort Joan, especially his dismissal of the turmoil caused by Cranmer's Reformation of the English Church that Rich aided as Lord Chancellor. Joan has worked closely with her father for the past 31 years and has substantial knowledge of the history she hears him reinventing. She records his words and her own. This novel is based on extensive research into the life of Richard Rich, of the man and his impact on the era. It is a tale that has never been told in its entirety until now. Best Translated Novel of the Decade - Lit Hub A New York Times Notable Book of 2015 — Michiko Kakutani, The Top Books of 2015, New York Times — TIME Magazine Top Ten Books of 2015 — Publishers Weekly Best Books of the Year — Financial Times Best Books of the Year "A tour-de-force reimagining of Camus's *The Stranger*, from the point of view of the mute Arab victims." —The New Yorker He was the brother of "the Arab" killed by the infamous Meursault, the antihero of Camus's classic novel. Seventy years after that event, Harun, who has lived since childhood in the shadow of his sibling's memory, refuses to let him remain anonymous: he gives his brother a story and a name—Musa—and describes the events that led to Musa's casual murder on a dazzlingly sunny beach. In a bar in Oran, night after night, he ruminates on his solitude, on his broken heart, on his anger with men desperate for a god, and on his disarray when faced with a

country that has so disappointed him. A stranger among his own people, he wants to be granted, finally, the right to die. The Stranger is of course central to Daoud's story, in which he both endorses and criticizes one of the most famous novels in the world. A worthy complement to its great predecessor, *The Meursault Investigation* is not only a profound meditation on Arab identity and the disastrous effects of colonialism in Algeria, but also a stunning work of literature in its own right, told in a unique and affecting voice. ***NOW A USA TODAY BESTSELLER*** Imagine lying in a hospital bed and the doctor who pulls the curtain back to treat you is the one who got away. All a' them will have to die." Chaco was getting angry. "Darkhorse, you're crazy! Before this is all over, you'll have the entire United States Cavalry down your back." "It's too bad you won't be around to see that." "If you wanna make a fight a' this, let me get back to the town an' prepare for the

battle." "Do I look stupid? Without you, that bunch a' fumblin' fools will end up shootin' each other, an' you know it. This is a good place for you to die." As Darkhorse reached for his revolver, a shot rang through the air. Judas Barbone fell from his horse, the blood spurting from the bullet in his head. Chaco seized the slim chance, pulled his six-shooter, and started firing at the riders in front of him. The horses, startled by the noise, started bucking and rearing. In the commotion. Chaco turned and made a run for the town. Before the comancheros could get their frightened mounts under control, a barrage of bullets hit the cluster and sent them running into each other. Spurring his horse, Chaco raced toward safety. The distance between him and the oncoming desperados was widening when a flying bullet shattered the back left leg of the horse. The animal reared and fell over on its side, throwing Chaco to the ground. A bullet struck the dirt in front of him as he scrambled to his feet. Looking up, he saw the galloping gang of gunslingers bearing down on him. He turned and ran toward the town. A yell from his left turned his head. Coming in fast was a lone rider, leaning low over the outstretched neck of his mount. Pulling hard on the reins, the horseman spun the mare around, slowing her enough to allow Chaco to swing up behind the rider. Giving the horse her head, the two frantic riders leaned over and held their breath, expecting any second that a bullet would find its mark. They started to breathe easier as they saw the town coming up fast. Their reprieve was short-lived. The mare stiffened and then seemed to relax. Her front legs foundered, and she fell forward, flipping over on her back. Chaco leaped out to his right, away from the plunging animal, but the front rider couldn't break from the stirrups and the horse fell on his leg. Coming to his feet. Chaco rushed over and started pulling on the trapped man. Bullets whizzed by as he strained at the one pinned leg. Realizing that time was running out. Chaco twisted his newfound savior round the dead horse, sheltering him from the deluge of gunfire. Grabbing his rifle from the

saddle's scabbard, he ducked behind the horse and started returning fire. Its Head Came Off by Accident is a humorous, yet poignant reflection on gratitude and loss. It describes a childhood that takes place on a vast Wyoming landscape--more than 6,000 acres near near Jackson Hole and adjacent to Grand Teton National Park--where the author grew up with adventure-crazed, raucous brothers and friends, and a colorful collection of Western characters, most particularly her own mother. Mead-Ferro's desire to move back to her childhood homeland from the city is weighed with how she felt when she did live on the cattle ranch, always unsure if she fit in. When Mead-Ferro's mother is killed in a freak horse accident while herding cattle, Mead-Ferro faces the loss not only of this profoundly influential person but of the entire ranching operation: a century-old legacy. After she and her brothers sell the family ranch Mead-Ferro attempts to recreate the landscape of her childhood--particularly the privileges and responsibilities of land, animals, and real work--as a bequest to her own children. The importance of professional and/or practical ethics cannot be overstated in most occupations, especially in light of our contemporary, interconnected world. Within formal education, the management paradigm is shifting as a result of a continuing refocus on the moral and ethical dimensions of working and leading in schools. Although professional norms and personal qualities of the educator can be powerful in directing and informing work-related judgment and behavior, this book puts forth and expands upon the viability of a professional ethic for education and educational administration and leadership in particular. The expansion of such an ethic for education has been underway, but in its current state could be viewed as underdeveloped or commonly misunderstood as obvious and simplistic. In this book, such an ethic for educational administration is presented, developed, and interrogated. This critical reader makes a strong argument for the legitimacy of a professional ethic for the field of education by drawing together a diverse collection of literature that explores, critically examines, and further develops a practical ethical paradigm for the field. #1 New York Times bestselling author of *Tidelands*—the “searing portrait of a woman that resonates across the ages” (*People*)—returns with an evocative historical novel tracking the rise of the *Tidelands* family in London, Venice, and New England. *Midsummer Eve 1670*. Two unexpected visitors arrive at a shabby warehouse on the south side of the River Thames. The first is a wealthy nobleman seeking the lover he deserted twenty-one years earlier. Now James Avery has everything to offer: a fortune, a title, and the favor of the newly restored King Charles II. He believes that the

warehouse's poor owner Alinor has the one thing he cannot buy—his son and heir. The second visitor is a beautiful widow from Venice in deepest mourning. She claims Alinor as her mother-in-law and tells her of the death of Rob—Alinor's son—drowned in the dark tides of the Venice lagoon. Meanwhile, Alinor's brother Ned, in faraway New England, is making a life for himself between in the narrowing space between the jarring worlds of the English newcomers and the American Indians as they move towards inevitable war. Alinor writes to him that she knows—without doubt—that her son is alive and the widow is an imposter. But how can she prove it? Set in the poverty and glamour of Restoration London, in the golden streets of Venice, and on the tensely contested frontier of early America, this is a novel of greed and desire: for love, for wealth, for a child, and for home. Five hundred miles off southwest Africa lies the island of Pharamaul. In dense jungle live the notorious Maula tribe, kept under surveillance by a solitary District Officer and his young wife. When Chief-designate, Dinamaula, returns England with a spirited desire to speed the development of his people, political crisis erupts. A radical thinker, one of the rare modern heretics, said Mary McCarthy of Ivy Compton-Burnett, in whose austere, savage, and bitingly funny novels anything can happen and no one will ever escape. The long, endlessly surprising conversational duels at the center of Compton-Burnett's works are confrontations between the unspoken and the unspeakable, and in them the dynamics of power and desire are dramatized as nowhere else. New York Review Books is reissuing two of the finest novels of this singular modern genius—works that look forward to the blacky comic inventions of Muriel Spark as much as they do back to the drawing rooms of Jane Austen. *A House and Its Head* is Ivy Compton-Burnett's subversive look at the politics of family life, and perhaps the most unsparing of her novels. No sooner has Duncan Edgeworth's wife died than he takes a new, much younger bride whose willful ways provoke a series of transgressions that

begins with adultery and ends, much to everyone's relief, in murder. Eloise Ristad deals here with complex problems which torment and cripple so many of our most creative and talented people, and she does so with compassion, wisdom, and wit. The problem of stage fright, for instance, is a suffering of epidemic proportions in our society, and involves modalities of thought and projections that rob spontaneity and enthusiasm in artistic performance. Those interested in creative education have long felt that an entirely new, holistic and nurturing process of allowing individuals to discover and express themselves is needed if our educational system is to avoid the neuroses and creative blocks of the past generation. This book illuminates through its conversational style the destructive inhibitions, fears, and guilt experienced by all of us as we fail to break through to creativity. This story is told to me day after day in conservatories and college campuses around the world. Indeed I felt at times that she was telling of my own most petty and debilitating fears. But what is important, *A Soprano on Her Head* supplies answers and methods for overcoming these universal psychological blocks--methods that have not only been proven in her own studio, but which trace back through history to the oldest and wisest systems of understanding the integration of mind and body. The work bears scrutiny both scientifically and holistically. - Foreword.
