*So, You Want to Buy a Used Car* Aug 14 2022 If you or a loved one is in the market for a used car, this straightforward and often amusing guide offers everything you need to avoid common scams, make a confident buying decision, and ultimately purchase a great vehicle at a fair price. Relaying lessons learned over 43 years in the car business, Bob Bruckert pulls back the curtain on an intimidating world as he walks you through every step of the purchasing process. From determining the right vehicle for your needs to signing the final paperwork, it's all here and presented in a relatable and easy-to-understand format. Above all else, you'll learn that while times may change, the RULES of the car business never do. This book explains those rules, leveling the playing field for a game in which the stakes are high and the uninitiated are at a serious disadvantage. Whether you read it from cover-to-cover or use it as a reference throughout your buying journey, you'll find practical information on each of the following topics and more: The BEST place to shop for a used car (hint: it's not the dealer) Figuring out how much this car will REALLY cost BEFORE you buy the car Financing your car Buying vs. leasing Trade-ins Warranties and service contracts The final paperwork What to do if you bought a bad car At every step, you'll discover the (often completely legal) methods that are used to separate honest citizens from their hard-earned money, and how to avoid them. From extremely high offers on trade-ins to "working a customer on payments," there are as many ways to take advantage of an uninformed car buyer as there are types of car to buy. But in the end, the RULES never change. Once you understand them, you need only venture out with a smile on your face, your eyes wide open, and one hand firmly on your wallet. Here's to you, and a good deal on the right car!

*The Narrowboat Guide* Feb 25 2021 The UK has over 1000 miles of navigable canals and rivers which are home to an estimated over 70,000 boats. To the untrained eye canal boats can look much the same, but there are some very important distinctions and a new buyer has some very important choices to make. This book discusses those choices,

taking into consideration the various boating profiles. From those choosing to live on board permanently, to constant cruisers, and weekend boaters to fair-weather cruisers, each will require a different type of boat if they are to fully enjoy their new vessel. The book covers finding and buying a boat, the legalities of purchase, the different features and utilities, finding a mooring, boating health and safety, the cost of boating, boat maintenance, boating etiquette and many other frequently asked questions.

**Creating Financial Value** Apr 29 2021 How many senior executives and managers are able to reach the top with little or no financial training? They may have been appointed to the executive board as a result of their expertise in marketing, HR, sales or IT, yet every board member has a responsibility to make informed decisions on proposed financial actions - decisions which inevitably affect the value of their business. Offering straightforward and practical advice, *Creating Financial Value* will equip those who are not financial specialists with the necessary knowledge not only to contribute fully to important discussions on policy and strategy, but also to develop sound business proposals, or to competently cross-examine the proposals of others. Through examples from a range of business disciplines, the book explains in simple, digestible terms how a business creates financial value, and how a non-financial manager can confidently take an active role in the process. Once read, the book will provide an essential resource that can be referenced time and again. Malcolm Allitt punctures the myths surrounding 'shareholder value' and looks behind the finance jargon to define the boundaries between what a non-specialist should know and when it is good practice to seek the advice of financial specialists. This book is key reading for anyone from a non-financial background who wants to execute their increasingly broad responsibilities competently and confidently, without the need to become experts themselves.

By now we all are aware that Dealers, Dealerships, Sales People, and Sellers of vehicle's make more when they sale the vehicle at a higher price. There is no secret that the seller's whole motivation is to sell you the vehicle at the highest price possible, and/or at the highest interest rates possible, and/or on the seller's terms. It is a very common practice in dealerships that the higher the sales person sales the vehicle for, the higher the sales person's commission. The higher the interest rate, the higher the sales person's commission. The more the sales person can convince you to sign the contract closer to his terms, the higher the sales person's commission. Therefore, it should not be a surprise to you that you need to gain the most knowledge you can to offset the sales person's strategies and tactics and save yourself some money. Money that you can use for other things. This is just common sense.
