Brunei Darussalam: Statistical Appendix This “fascinating historical account” of a Christian mission in Niger offers a personal and richly detailed look at religious institutions in the region (Religious Studies Review). Barbara M. Cooper looks closely at the Sudan Interior Mission, an evangelical Christian mission that has taken a tenuous hold in a predominantly Hausa Muslim area on the southern fringe of Niger. Based on sustained fieldwork, personal interviews, and archival research, this vibrant, sensitive, compelling, and candid book gives a unique glimpse into an important dimension of religious life in Africa.

Cooper’s involvement in a violent religious riot provides a useful backdrop for introducing other themes and concerns such as Bible translation, medical outreach, public preaching, tensions between English-speaking and French-speaking missionaries, and the Christian mission’s changing views of Islam. First published in 1998, this influential volume entered the debate on Foreign Direct Investment in the UK and focuses on the role of Multinational Enterprises (MNEs) in the service rather than manufacturing and primary sectors. While the significance of the service industry had been recognised (exceeding 60% of total GDP in some countries at the time of original publication), the role of FDI has not. Joanne Roberts thus contributed to a woefully under researched field, covering areas including international trade, the organisational theory of the firm and the UK business sector. Some vols. include appendices and accompanying documents. The aim of this book is to enhance theoretical

and practical understanding of quality management in tourism and hospitality. It provides a benchmark of current knowledge, and examines the range of research methods being applied to further develop tourism and hospitality service management research. It is hoped that this book will stimulate new research questions by highlighting tensions and challenges in the area. Cote d'Ivoire adopted an IMF-supported program in early 1994 following the devaluation of the CFA franc. Under this program, progress was made in reducing financial imbalances, controlling inflation, liberalizing the economy, and establishing a sound basis for sustainable economic growth necessary to reduce poverty. The following statistical data are also presented: selected national accounts indicators, GDP by origin, deflators of sectoral output, price structure of oil and gas products, production and exports of lumbar, export prices and costs of cocoa and coffee, and producer prices in agriculture. This book provides the first comprehensive information and detailed data on the welfare systems of all twenty-seven EU member states and offers the reader an invaluable introduction and basis for comparative welfare research. The introductory chapter summarizes the actual debate about welfare states and welfare (state) regimes, gives an overview on current welfare (state) research and analyses the main recent developments necessitating a new focus on European Welfare Systems. The twenty-seven chapters on

the welfare systems of the member states are written on the basis of a common structure by experts from the individual states. An additional chapter analyses the current social and welfare policies of the EU and focuses on the interplay and limits between European and national social policies. Two concluding chapters provide (a) a first comparative analysis on the basis of all twenty-seven European Welfare Systems and (b) a theoretical reflection both arguing for and venturing the idea of politically limited pluralism in European welfare politics. The IMF's principal statistical publication, International Financial Statistics (IFS) Online, is the standard source of international statistics on all aspects of international and domestic finance. For most countries, IFS Online reports data on balance of payments, international investment position, international liquidity, monetary and financial statistics, exchange rates, interest rates, prices, production, government accounts, national accounts, and population. Updated monthly. Named a 2013 Doody's Essential Purchase! Each time we see grim pictures of aircraft wreckage on a rain-drenched crash site, or scenes of tired holiday travelers stranded in snow-covered airports, we are reminded of the harsh impact that weather can have on the flying public. This book examines issues that affect the provision of national aviation weather services and related research and technology development efforts. It also discusses fragmentation of responsibilities and resources, which leads to a less-than-optimal use of available weather information and examines alternatives for responding to this situation. In particular, it develops an approach whereby the federal government could provide stronger leadership to improve cooperation and coordination among aviation weather providers and users. Bentley Publishers is the exclusive factory-authorized publisher of Volkswagen Service Manuals in the United States and Canada. The book deals with the role of the international level in securing or supplementing national welfare functions. The authors evaluate the role of international labour law, social rights as human rights, the World Trade Organisation, non-governmental organisations and international taxation law, in the effort to maintain and promote welfare rights and the welfare state. The functions of national migration law and of social security law are analysed in case studies.
