With the spread of interest-based transactions, major problems such as inequality, poverty and debt-based slavery have emerged. Those who practiced professions such as usury have, despite the negative connotations attributed to them, contributed extensively to the construction of the conventional financial system in the global economy, suggesting that the core concepts in this practice need to be analyzed in greater depth and from a historical perspective. This book analyzes the evolution of interest-bearing debt transactions from ancient times to the era of Abrahamic religions. In modern times, interest is strictly prohibited by Islam, but this book demonstrates that it is a practice that has been condemned and legally and morally prohibited in other civilizations, long before Islam outlawed it. Exploring the roots of this prohibition and how interest has been justified as a viable practice in economic and financial transactions, the book offers deep insight into the current nature of finance and economics, and the distinctive features of Islamic finance in particular and enables researchers to further delve into a review of interest-free financing models. Islamic finance, or alternative financial methods, have become extremely popular particularly in the aftermath of global financial crises, suggesting that they will attract further interest in the future as well. The book is primarily aimed at undergraduate and graduate students but, as it avoids the use of technical jargon, it also speaks to a general readership. It will appeal to those who have an interest in financial history, particularly the history of debt as well. Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. "A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought."—Kirkus Reviews In Fingerprints of the Gods, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, Fingerprints of the Gods contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And Fingerprints of God tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. "Readers will hugely enjoy their quest in these pages of inspired storytelling."—The Times (UK) This is a completely new and

updated edition of J. M. Roberts and Odd Arne Westad's widely acclaimed, landmark bestseller The Penguin History of the World. For generations of readers The Penguin History of the World has been one of the great cultural experiences - the entire story of human endeavour laid out in all its grandeur and folly, drama and pain in a single authoritative book. Now, for the first time, it has been completely overhauled for its 6th edition - not just bringing it up to date, but revising it throughout in the light of new research and discoveries, such as the revolution in our understanding of many civilizations in the Ancient World. The closing sections of the book reflect what now seems to be the inexorable rise of Asia and the increasingly troubled situation in the West. About the authors: J.M. Roberts, CBE, published The Penguin History of the World in 1976 to immediate acclaim. His other major books include The Paris Commune from the Right, The Triumph of the West (which was also a successful television series), The Penguin History of Europe and The Penguin History of the Twentieth Century. He died in 2003. Odd Arne Westad, FBA, is Professor of International History at the London School of Economics. He has published fifteen books on modern and contemporary international history, among them The Global Cold War, which won the Bancroft Prize, and Decisive Encounters, a standard history of the Chinese civil war. He also served as general co-editor of the Cambridge History of the Cold War. Reviews 'A work of outstanding breadth of scholarship and penetrating judgements. There is nothing better of its kind' Jonathan Sumption, Sunday Telegraph 'A stupendous achievement' A.J.P. Taylor 'A brilliant book ... the most outstanding history of the world yet written' J.H.
