**A French Song Companion**  
Oct 06 2021  
A French Song Companion is an indispensable guide to the modern repertoire and the most comprehensive

book of French melodie in any language. Noted accompanist Graham Johnson provides repertoire guides to the work of over 150 composers--the majority of them from France but including British, American, German, Spanish, and Italian musicians who have written French vocal music. The book contains major articles on Faure, Duparc, Debussy, Ravel, and Poulenc, as well as essays on Bizet, Chabrier, Gounod, Chausson, Hahn, and Satie, and important reassessments of such composers as Massenet, Koechlin, and Leguerney. The book combines these articles with the complete texts in English of over

700 songs, all translated by Richard Stokes, making it also a treasury of French poetry from the fifteenth through the twentieth centuries. The translations alone will prove invaluable to music lovers and performers; combined with the biographical articles, they become the ideal map for exploring this exciting and diverse repertoire. **A Mammal's Notebook** Sep 17 2022 This is the largest selection, in any language, of the writings of Erik Satie. Although he was dismissed as an eccentric by many, Satie has come to be seen as a key influence on modern music. The

appeal of his writings, however, go far beyond their musical value. He is revealed as one of the most beguiling of absurdists, in the mode of Lewis Carroll or Edward Lear, but with a strong streak of Dadaism (a movement with which he collaborated). **A Natural History of the Piano** Feb 10 2022 A fascinating celebration of the piano, including tales of its masters from Mozart and Beethoven to Oscar Peterson and Jerry Lee Lewis, told with the expertise of composer and author of *Temperament*, Stuart Isacoff. This history takes us back to the piano's humble genesis as a

simple keyboard, and shows how everyone from Ferdinando de' Medici to Herbie Hancock affected its evolution of sound and influence in popular music. Presenting the instrument that has been at the core of musical development over the centuries in all its beauty and complexity, this explores the piano's capabilities and the range of emotional expression it conveys in different artists' hands. A Natural History of the Piano is fast-paced and intriguing, with beautiful illustrations and photos, a must-read for music lovers and pianists of every level.

Erik Satie: Music,

### Art and Literature

Nov 26 2020 Erik Satie (1866-1925) was a quirky, innovative and enigmatic composer whose impact has spread far beyond the musical world. As an artist active in several spheres - from cabaret to religion, from calligraphy to poetry and playwriting - and collaborator with some of the leading avant-garde figures of the day, including Cocteau, Picasso, Diaghilev and René Clair, he was one of few genuinely cross-disciplinary composers. His artistic activity, during a tumultuous time in the Parisian art world, situates him in an especially exciting period, and

his friendships with Debussy, Stravinsky and others place him at the centre of French musical life. He was a unique figure whose art is immediately recognisable, whatever the medium he employed. Erik Satie: Music, Art and Literature explores many aspects of Satie's creativity to give a full picture of this most multifaceted of composers. The focus is on Satie's philosophy and psychology revealed through his music; Satie's interest in and participation in artistic media other than music, and Satie's collaborations with other artists. This book is therefore essential reading

for anyone interested in the French musical and cultural scene of the late nineteenth and early twentieth century.

**The Vexations** Aug 16 2022 This "enthrralling" debut novel and Wall Street Journal Top Ten Book of the Year circles the life of eccentric composer Erik Satie in *La Belle Époque* Paris and examines love, family, genius, and the madness of art (New York Times Book Review). Erik Satie begins life with every possible advantage. But after the dual blows of his mother's early death and his father's breakdown upend his childhood, Erik and his younger siblings -- Louise and

Conrad -- are scattered. Later, as an ambitious young composer, Erik flings himself into the Parisian art scene, aiming for greatness but achieving only notoriety. As the years, then decades, pass, he alienates those in his circle as often as he inspires them, lashing out at friends and lovers like Claude Debussy and Suzanne Valadon. Only Louise and Conrad are steadfast allies. Together they strive to maintain their faith in their brother's talent and hold fast the badly frayed threads of family. But in a journey that will take her from Normandy to Paris to Argentina, Louise is rocked by

a severe loss that ultimately forces her into a reckoning with how Erik -- obsessed with his art and hungry for fame -- will never be the brother she's wished for. With her buoyant, vivid reimagination of an iconic artist's eventful life, Caitlin Horrocks has written a captivating and ceaselessly entertaining novel about the tenacious bonds of family and the costs of greatness, both to ourselves and to those we love.

**The Voice of New Music** Jan 17 2020 An anthology of articles on the evolution of minimal music in New York in 1972-1982, which originally appeared

in the Village Voice (New York). Writings through John Cage's Music, Poetry, and Art Feb 16 2020 This volume looks at the creative work of the great avant-gardist John Cage from an exciting interdisciplinary perspective, exploring his activities as a composer, performer, thinker, and artist. The essays in this collection grew out of a pivotal gathering during which a spectrum of participants including composers, music scholars, and visual artists, literary critics, poets, and filmmakers convened to examine Cage's extraordinary artistic legacy.

Beginning with David Bernstein's introductory essay on the reception of Cage's music, the volume addresses topics ranging from Cage's reluctance to discuss his homosexuality, to his work as a performer and musician, and his forward-looking, provocative experimentation with electronic and other media. Several of the essays draw upon previously unseen sketches and other source materials. Also included are transcripts of lively panel discussions among some of Cage's former colleagues. Taken together, this collection is a much-needed contribution to the study of one of the

most significant American artists of the twentieth century.

"Ludy" Godbold was six feet tall and skinnier than a Carolina pine and an exceptional athlete. In her final year on the track team at Winthrop College in South Carolina, Ludy tried the shot put and she made that iron

ball sail with her long, skinny arms. But when Ludy qualified for the first Women's Olympics in 1922, Ludy had no money to go. Thanks to the help of her college and classmates, Ludy traveled to Paris and won the gold medal with more than a foot to spare. Hooray for Ludy! Based on a true story about a little-known athlete and a unique event in women's sports history.

"Roth Family Foundation music in America imprint"--Prelim. p. Esquivel! Space-Age Sound Artist Nov 07 2021 A playful picture-book biography of the father of space-age bachelor-pad lounge music.

Gorgeously illustrated by Duncan Tonatiuh, this lively biography follows Juan Garcia Esquivel from Mexico to New York City. Juan grew up to the sounds of mariachi bands; he

loved music and became a musical explorer. Defying convention, he created music that made people laugh and planted images in their minds. His musical dreams brought him from Mexico to America and gained him worldwide renown. Juan's space-age lounge music—popular in the fifties and sixties—has found a new generation of listeners. This account honors Esquivel as one of the great composers of the 20th century. *Reflections of an American Composer* Feb 27 2021 In this engrossing collection of essays, distinguished composer, theorist, journalist, and

educator Arthur Berger invites us into the vibrant and ever-changing American music scene that has been his home for most of the twentieth century. Witty, urbane, and always entertaining, Berger describes the music scene in New York and Boston since the 1930s, discussing the heady days when he was a member of a tight-knit circle of avant-garde young composers mentored by Aaron Copland as well as his participation in a group at Harvard University dedicated to Stravinsky. As Virgil Thomson's associate on the New York Herald Tribune and founding editor of

the prestigious *Perspectives of New Music*, Berger became one of the preeminent observers and critics of American music. His reflections on the role of music in contemporary life, his journalism career, and how changes in academia influence the composition and teaching of music offer a unique perspective informed by Berger's abundant intelligence and experience. **Debussy** Jan 29 2021 One of the most revered composers of the twentieth century, Claude Debussy (1862-1918) achieved the unheard of: he reinvented the language of music

without alienating the majority of music lovers. Debussy drove French music into entirely new regions of beauty and excitement at a time when old traditions threatened to stifle it. Yet despite his profound influence on French culture, Debussy's own life was complicated and often troubled by struggles over money, women, and ill health. Here, Stephen Walsh, acclaimed author of *Stravinsky*, chronicles both the composer himself and the unique moment in European history that bore him. Walsh's engagingly original approach is to enrich a lively biography with analyses of

Debussy's music: from his first daring breaks with the rules as a Conservatoire student to his achievements as the greatest French composer of his time.

Virgil Thomson had already established himself as one of the nation's leading composers when he published The State of Music (1939), the book that made his name as a writer and won him a fourteen-year stint as chief music reviewer at the New York Herald Tribune. This feisty, often hilarious polemic, presented here in the extensively revised edition of 1962, surveys the challenges confronting the American composer

in a hide-bound world where performance and broadcast outlets are controlled by institutions shocked by the new and suspicious of homegrown talent. For Aaron Copland, *The State of Music* was not just "the most original book on music that America has produced," but "the wittiest, the most provocative, the best written."

### **Chasing Chopin**

May 01 2021 "The Frédéric Chopin Annik LaFarge presents here is not the melancholy, sickly, romantic figure so often portrayed. The artist she discovered is, instead, a purely independent spirit: an innovator who created a new

musical language, an autodidact who became a spiritually generous, trailblazing teacher, a stalwart patriot during a time of revolution and exile. In *Chasing Chopin* she follows in his footsteps during the three years, 1837-1840, when he composed his iconic "Funeral March"-dum dum da dum-using its composition story to illuminate the key themes of his life: a deep attachment to his Polish homeland; his complex relationship with writer George Sand; their harrowing but consequential sojourn on Majorca; the rapidly developing technology of the piano, which

enabled his unique tone and voice; social and political revolution in 1830s Paris; friendship with other artists, from the famous Eugène Delacroix to the lesser known, yet notorious in his time, Marquis de Custine. Each of these threads-musical, political, social, personal-is woven through the "Funeral March" in Chopin's Opus 35 sonata, a melody so famous it's known around the world even to people who know nothing about classical music. But it is not, as LaFarge discovered, the piece of music we think we know. As part of her research into Chopin's world, then and now, LaFarge visited piano makers, monuments,

churches, and archives; she talked to scholars, jazz musicians, video game makers, software developers, music teachers, theater directors, and of course dozens of pianists. The result is extraordinary: an engrossing, page-turning work of musical discovery and an artful portrayal of a man whose work and life continue to inspire artists and cultural innovators in astonishing ways"--

In a brilliant performance

worthy of the composer, M. T. Anderson and Petra Mathers present a picture-book biography of the singular Erik Satie. Throughout his life, Erik Satie wanted to make a new kind of music, a kind of music both very young and very old, very bold and very shy, that followed no rules but its own. At first glance, Erik Satie looked as normal as anyone else in Paris one hundred years ago. Beyond his shy smile, however, was a mind like no other. When Satie sat down at the piano to compose or play music, his tunes were strange and dreamlike, his melodies topsy-turvy and discordant. Many people hated his

music. Few understood it. But to Erik Satie there was sense in nonsense, and the vibrant, surreal compositions of this eccentric man-child would go on to influence many artists.

**Letters** Oct 14

2019 This whimsical book about the eccentric Parisian composer Erik Alfred Leslie Satie (1866-1925) confirms his position as one of the most bizarre personalities in music history. Gathered by a determined iconographer, the director of the Satie Foundation in Paris, and arranged somewhat chronologically by topic, such as

"Friends," and "Lawsuits," these letters to Cocteau, Debussy, Milhaud, Picasso, Ravel and Stravinsky, among others, many of which have not been previously published, give us a picture of Satie the friend, student, neighbor, composer and musical influence, and of the only adherent to a religion that he founded. Illustrated with line drawings by Cocteau, Magritte and Picasso, as well as Satie's own musical scores and logos, this book will entrance and delight those interested in Parisian cultural life in the early 20th century.

### **Handel, Who Knew What He**

In this biography, the man who would later compose some of the world's most beautiful music is shown to have once been a stubborn little boy with a mind of his own. Satie the Composer Sep 24 2020 Erik Satie remains one of the most bizarre figures in music history, yet everything he did has its own curious logic, once it can be perceived. In this important new study Dr Orledge reveals what made Satie 'tick' as a composer, dealing with every aspect of Satie's complex career and relating his achievement to the other arts and to the society in which he lived. Almost every figure in contemporary art was involved with

Satie in some way or another, from Matisse and Picasso to Apollinaire, Cocteau and Brancusi. This, however, is no mere life-and-works study but rather an exploration of the technique behind Satie's art, which foreshadowed most of the 'advances' of twentieth-century music from serialism to minimalism, and even muzak. As the book progresses Satie appears as far more than just the composer of the popular *Gymnopédies* and *Parade*. *Where the Heart Beats* Mar 31 2021 A "heroic" biography of John Cage and his "awakening through Zen Buddhism"—"a kind

of love story" about a brilliant American pioneer of the creative arts who transformed himself and his culture (The New York Times) Composer John Cage sought the silence of a mind at peace with itself—and found it in Zen Buddhism, a spiritual path that changed both his music and his view of the universe. "Remarkably researched, exquisitely written," *Where the Heart Beats* weaves together "a great many threads of cultural history" (Maria Popova, *Brain Pickings*) to illuminate Cage's struggle to accept himself and his relationship with choreographer Merce Cunningham. Freed

to be his own man, Cage originated exciting experiments that set him at the epicenter of a new avant-garde forming in the 1950s. Robert Rauschenberg, Jasper Johns, Andy Warhol, Yoko Ono, Allan Kaprow, Morton Feldman, and Leo Castelli were among those influenced by his 'teaching' and 'preaching.' Where the Heart Beats shows the blossoming of Zen in the very heart of American culture.

Debussy Letters  
Aug 24 2020

George Gershwin  
Jul 03 2021 This comprehensive biography of George Gershwin (1898-1937) unravels the myths surrounding one of

America's most celebrated composers and establishes the enduring value of his music. Gershwin created some of the most beloved music of the twentieth century and, along with Jerome Kern, Irving Berlin, and Cole Porter, helped make the golden age of Broadway golden. Howard Pollack draws from a wealth of sketches, manuscripts, letters, interviews, books, articles, recordings, films, and other materials—including a large cache of Gershwin scores discovered in a Warner Brothers warehouse in 1982—to create an expansive chronicle of Gershwin's meteoric rise to

fame. He also traces Gershwin's powerful presence that, even today, extends from Broadway, jazz clubs, and film scores to symphony halls and opera houses. Pollack's lively narrative describes Gershwin's family, childhood, and education; his early career as a pianist; his friendships and romantic life; his relation to various musical trends; his writings on music; his working methods; and his tragic death at the age of 38. Unlike Kern, Berlin, and Porter, who mostly worked within the confines of Broadway and Hollywood, Gershwin actively sought to cross the boundaries between

high and low, and wrote works that crossed over into a realm where art music, jazz, and Broadway met and merged. The author surveys Gershwin's entire oeuvre, from his first surviving compositions to the melodies that his brother and principal collaborator, Ira Gershwin, lyricized after his death. Pollack concludes with an exploration of the performances and critical reception of Gershwin's music over the years, from his time to ours. [Triple Entendre](#) Oct 18 2022 Triple Entendre discusses the rise and spread of background music in contexts as diverse as office workplaces, shopping malls, and

musical performance. Hervé Vanel examines background music in several guises, including Erik Satie's "Furniture Music" of the late 1910s and early 1920s, which first demonstrated the idea of a music not meant to be listened to, and the Muzak Corporation's commercialized ambient music that became a predominant feature of modern life in the 1940s. Vanel's discussion culminates in the creative response of the composer John Cage to the pervasiveness and power of background music in contemporary society. By examining the subterranean

connections existing between these three formulations of a singular idea, Triple Entendre analyzes and challenges the crucial boundary that separates an artistic concept from its actual implementation in life.
