During the 1930s in the United States, the Works Progress Administration developed the Federal Writers' Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little-known authors—many of whom would later become

celebrated literary figures—were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. Explains the difficulties in forming healthy and loving relationships, and how we can overcome them: for young and old, singles and couples. This book provides centralized information on both premier birding sites throughout the state and where to find particular birds of interest. Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the consecutive numbering of the regular series. The study guide to accompany Famous Men of Greece, also published by Greenleaf Press. The Guide includes suggestions for how to set your study of ancient civilizations in a biblical context, as well as background information, vocabulary, and discussion questions. Also contains suggestions for supplementary assignments in children's versions of the Iliad and Odyssey, as well as selections from Plato. In the 1930s, at the height of the Great Depression, the federal government put thousands of unemployed writers to work in the Federal Writers' Project of the Works Progress Administration (WPA). Out of their efforts came the American Guide series, the first comprehensive guidebooks to the people, resources, and traditions of each state in the union. The WPA Guide to South Dakota is a candid, detailed, and lively introduction to the state and its people. Much has changed since the book's first publication in 1938, when the authors noted, "South Dakota has been, and still is, a pioneer state." But the book vividly recaptures the era when no driver's licenses were required, when liquor could not be sold on election days until after 5:00 PM, when Pierre's recreational groups included polo riders and skeet shooters, when the Morrell packing plant at Sioux Falls offered free tours on weekdays. This unique guide has much more than nostalgia to offer today's readers. Twenty-eight auto tours and nine city tours tell the stories of the state's people and places and offer a fascinating alternative to freeway travel. Essays on major themes such as native peoples, history, architecture, transportation, and recreation provide an authentic self-portrait of 1930s South Dakota in humorous, loving, and literary prose. A new introduction by historian John E. Miller shares the story behind the American Guide series and celebrates those distinctly South Dakotan qualities preserved in this decades-old volume—qualities that hold true today. This time-traveler's guide to South Dakota is an evocative reminder of the state's history and a challenge to contemporary readers who seek to find how that past lives on in the present day. Book jacket. Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the
