Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows

how to behave in a vet's office, is at ease around strangers, and more. In other words, the best dog ever. A revolutionary way to raise and train your dog, with “a wealth of practical tips, tricks, and fun games that will enrich the lives of many dogs and their human companions” (Dr. Ian Dunbar, veterinarian and animal behaviorist). Buy *Positive Dog Training* today and start learning! A dog can be a wonderful companion with

enormous affection for you and your family. His keen senses and alertness can provide you with much-needed protection, but it is important to remember that you must be prepared to care for your pet for the next twelve or more years. Like a child, it will depend on you, not only for its health and well-being, but also for dedicated training in order to become a friendly, well-mannered dog that is a pleasure for you and others. It must also be remembered that we do not live in a dog's world but that our dogs are the ones who must learn to live in a human world. It is therefore our responsibility to adequately prepare them for the unfamiliar environment in which we place them. Society does not punish a child for pulling a dog's tail but will punish the dog for biting that child. Before a handler can train his dog, he must understand what is involved in the training process. He needs to understand what is required from him and the dog in each part of each of the different obedience exercises. He must be able to teach his dog what it is expected to know, help it as much as possible, and make it as easy as possible for the dog. He needs to know about positive reinforcement in order to get the targeted behavior to recur and to reward good behavior. Above all, he needs to know when and how much to praise and what to do when the dog is not performing a task it was taught. All this he cannot learn during the relatively short time he spends each week with the instructor at the club. Six days a week he is alone at home with his dog and needs to

continue to build on the training he received at the club. He needs to remember the sequence of training steps and how to break them up into the small component parts to be mastered by the dog. And when he becomes confused, he needs help or notes to refer to! This is what I had in mind when I decided to write these notes on basic dog obedience training. There are many basic training methods from clicker training to the more traditional methods that can be used to train a dog for obedience work. The perfect training method does not exist; otherwise, we would all have had copies made and used on our dogs. No, we are all learning and improving. I have adopted an eclectic approach to dog training—that is, I have, over many years, studied different training methods and selected from them what will work for most dogs. At times, however, I may use a combination of these methods, or I may shift from one method to another, depending on the training need or exercise. What is very important to me is that the reader must not only know about the best methods of teaching dogs today but must understand why a dog behaves the way it does. Above all, it must be remembered that dog training must be fun for both dog and trainer. Most dog owners do not ask much of their dogs: they ask only that the dogs obey some basic commands and that they are well behaved at home and in public. That is why all dogs should, at least, do the Canine Good Citizen test. I hope my notes will add to your knowledge of basic dog obedience training

and that your trained dog will bring much joy to you and your family. From bestselling author Jon Gordon comes a spiritual fable about the power of faith, hope, and love Meet Jay and Kay. They're twins, and like many teenagers their age, they're dealing with stress and anxiety. One day on their way to school, they have a nice conversation with their old family friend and youth soccer coach, Mr. Erwin, who shows them a special garden he created in his backyard. The garden serves as both a place and a metaphor for Mr. Erwin to share a powerful paradigm and practical strategies to help the twins overcome their fear, stress, and anxiety. The Garden is an enlightening and encouraging spiritual fable that reveals the 5 D's that can sabotage us and a proven plan to help us overcome and win the battle in our mind. Rooted in Jon Gordon's faith tradition, this fable is a different kind of book than his previous business fables. However, in his

familiar trademark style, he takes a complex subject and simplifies it to help people take action and improve their lives. Everyone will struggle with fear, anxiety, or stress at some point in their lives, and everyone will have to overcome these challenges to create the life they were meant to live. Given that there are many contributing factors that influence how we think and feel, Jon wrote this book to share how the power of love, encouragement, truth, faith, and belief can be part of the solution. Having worked with countless leaders, companies, sports teams, professional athletes, and high school students, Jon Gordon infuses this life-changing story with thought-provoking ideas, practical strategies, and a framework to overcome fear with faith. Whether you are dealing with fear, stress, and anxiety yourself, have a family member that struggles, or are a mental health expert that works with clients, if any of the ideas in this book can be useful to you or the people you love and care about, then it's worth a walk through The Garden with Jay, Kay, and Mr. Erwin to discover ways to persevere through life with the power of faith, hope, and love. Author and noted Seattle dog trainer Cristine Dahl has created this revolutionary step-by-step manual to teach dog owners how they can humanely and easily train their dogs to change problem behaviors. The book is organized by individual problem scenarios where very sort of bad behavior is addressed, whether it's if the dog compulsively digs all around your garden or if it likes to steal

your shoes or if it jumps on every guest the minute they walk in the door. For each problem scenario, Dahl explains the reasons for such behavior, and then gives simply phrased instructions on how to resolve it and alter the dog's behavior for future scenarios. Her methods are humane (unlike Cesar Millan, she's approved by the SPCA) and simple, perfect for the hobbyist dog owner. Train your dog the positive way. come. The days when dogs ran without leashes and ate table scraps are long gone. Most pups today eat in the kitchen, play in the living room, and sleep in humans' beds at night. This is the ideal book for dog owners who want their dogs to be happy, healthy family members. In the Colorado mountain town of Steamboat Springs there must be three hundred dogs. Jack's malamute, McKinley, is the leader of them all. But Jack, being human, has no way of knowing that. For him, his family's dog is just a great pal. And protector. Jack cannot know that Redburn, a "leash-licking" Irish setter, is McKinley's rival for the job of head dog. The boy cannot know, with the sudden hillside appearance of a she-wolf, Lupin, that not only McKinley's job -- but his life -- is in danger. Lupin's message: Dogs free yourselves from mankind. Come join us, we who need you to replenish our diminishing wolf pack in the wild. But imagine how a good dog, loyal to his human pup, would hear Lupin's call! McKinley's thrilling story tells itself, as first he and the boy together encounter Lupin in a canyon perfect

for an old-time ambush, and later as they try to save her from both Redburn and a neighbor, a vicious man armed with a gun and a grudge. No one -- not even McKinley -- can foresee the end. Sit up and pay attention to the book that bonds people to their best friends. BONUS: This edition contains an excerpt from Jon Katz's Going Home. "People who love dogs often talk about a 'lifetime' dog. I'd heard the phrase a dozen times before I came to recognize its significance. Lifetime dogs are dogs we love in especially powerful, sometimes inexplicable ways."-Jon Katz In this gripping and deeply touching book, bestselling author Jon Katz tells the story of his lifetime dog, Orson: a beautiful border collie-intense, smart, crazy, and unforgettable. From the moment Katz and

Orson meet, when the dog springs from his traveling crate at Newark airport and panics the baggage claim area, their relationship is deep, stormy, and loving. At two years old, Katz's new companion is a great herder of school buses, a scholar of refrigerators, but a dud at herding sheep. Everything Katz attempts- obedience training, herding instruction, a new name, acupuncture, herb and alternative therapies-helps a little but not enough, and not for long. "Like all border collies and many dogs," Katz writes, "he needed work. I didn't realize for some time I was the work Orson would find." While Katz is trying to help his dog, Orson is helping him, shepherding him toward a new life on a two-hundred-year-old hillside farm in upstate New York. There, aided by good neighbors and a tolerant wife, hip-deep in sheep, chickens, donkeys, and more dogs, the man and his canine companion explore meadows, woods, and even stars, wade through snow, bask by a roaring wood stove, and struggle to keep faith with each other. There, with deep love, each embraces his unfolding destiny. A Good Dog is a book to savor. Just as Orson was the author's lifetime dog, his story is a lifetime treasure-poignant, timeless, and powerful. Would you like to live in harmony in a house with multiple dogs?! Almost every dog owner has a pet who suffers from fear, anxiety, and stress (FAS). They are the underlying cause of many concerning behaviors such as excessive barking, aggression, destructive behaviors, and house-soiling. They are also the source for deterioration of the human-animal bond, and can make a trip to the veterinarian, pet

groomer, or boarding facility miserable for pet and owner alike. Left untreated, these negative experiences can lead to devastating consequences and permanent damage.

Unfortunately, many well-meaning owners misinterpret or overlook the often subtle signs of emotional injury and turmoil, or think that the pet will simply "outgrow" it. This leads to unnecessary trauma and suffering. Common FAS triggers include: Trips to the veterinarian (even for routine services such as vaccinations and nail trims) Bath time, brushing, or cleaning ears. Loud noises; thunderstorms; fireworks; the vacuum cleaner; construction; gunshots; or even buzzers on appliances. Less-familiar people or animals encountered on walks or near the home. Being left alone during work hours or even for short errands. Travel, including car rides. Finally, there's help. From Fearful to Fear Free is based on the groundbreaking Fear Free program embraced by tens of thousands of veterinary healthcare professionals and hundreds of thousands of pet owners (fearfreepets.com and fearfreehappyhomes.com). This is the first and most authoritative book on the subject of reducing FAS and increasing "happy and calm" in dogs. Since pets communicate nonverbally, this book will help you recognize if your pet is suffering from FAS. By knowing your dog's body language, vocalizations, and changes in normal habits, you can make an accurate diagnosis and take action to prevent triggers or treat the fallout if they do happen. You'll learn:

The most effective prescription sedatives for keeping dogs calm and happy during thunderstorms, fireworks, and other stressful events. The positive steps you can take to keep your pet occupied, calm, and content while you're away at work or play.
