NEW YORK TIMES BEST SELLER • From the indie rock sensation known as Japanese Breakfast, an unforgettable memoir about family, food, grief, love, and growing up Korean American—"in losing her mother and cooking to bring her back to life, Zauner became herself" (NPR) • CELEBRATING OVER ONE YEAR ON THE NEW YORK TIMES BEST SELLER LIST In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread. \*Updated with a new chapter on digital curation\* How Music Works is David Byrne's incisive and enthusiastic look at the musical art form, from its very inceptions to the influences that shape it, whether acoustical, economic, social or technological. Byrne's magnum opus uncovers ever-new and thrilling realizations about the redemptive liberation that music brings us all. Gender, Branding, and The Modern Music Industry combines interview data with music industry professionals with theoretical frameworks from sociology, mass communication, and marketing to explain and explore the gender differences female artists experience. This book provides a rare lens on the rigid packaging process that transforms female artists of various genres into female pop stars. Stars -- and the industry power brokers who make their fortunes -- have learned to prioritize sexual attractiveness over talent as they fight a crowded field for movie deals, magazine covers, and fashion lines, let alone record deals. This focus on the female pop star's body as her core asset has resigned many women to being "short term brands," positioned to earn as much money as possible before burning out or aging ungracefully. This book, which includes interview data from music industry insiders, explores the sociological forces that drive women into these tired representations, and the ramifications on the greater social world. This book is for Sociology of Media and Sociology of Popular Culture courses. A guide to the music business and its legal issues provides real-world coverage of a wide range of topics, including teams of advisors, record deals, songwriting and music publishing, touring, and merchandising. "Musicians often pay a high price for sharing their art with us. Underneath the glow of success can often lie loneliness and exhaustion, not to mention the basic

struggles of paying the rent or buying food. Sally Anne Gross and George Musgrave raise important questions – and we need to listen to what the musicians have to tell us about their working conditions and their mental health.” Emma Warren (Music Journalist and Author). “Singing is crying for grown-ups. To create great songs or play them with meaning music’s creators reach far into emotion and fragility seeking the communion we demand of it. However, music’s toll on musicians can leave deep scars. In this important book, Sally Anne Gross and George Musgrave investigate the relationship between the wellbeing music brings to society and the wellbeing of those who create. It’s a much needed reality check, deglamorising the romantic image of the tortured artist.” Crispin Hunt (Multi-Platinum Songwriter/Record Producer, Chair of the Ivors Academy). It is often assumed that creative people are prone to psychological instability, and that this explains apparent associations between cultural production and mental health problems. In their detailed study of recording and performing artists in the British music industry, Sally Anne Gross and George Musgrave turn this view on its head. By listening to how musicians understand and experience their working lives, this book proposes that whilst making music is therapeutic, making a career from music can be traumatic. The authors show how careers based on an all-consuming passion have become more insecure and devalued. Artistic merit and intimate, often painful, self-disclosures are the subject of unremitting scrutiny and data metrics. Personal relationships and social support networks are increasingly bound up with calculative transactions. Drawing on original empirical research and a wide-ranging survey of scholarship from across the social sciences, their findings will be provocative for future research on mental health, wellbeing and working conditions in the music industries and across the creative economy. Going beyond self-help strategies, they challenge the industry to make transformative structural change. Until then, the book provides an invaluable guide for anyone currently making their career in music, as well as those tasked with training and educating the next generation. (Berklee Press).
