**Fantastic Origami Flying Creatures** Jan 13 2022 Japanese origami expert Hisao Fukui shows you how to create incredibly realistic paper birds and flying insects, a winged dinosaur and even an undulating Chinese dragon! The easy-to-follow folding instructions and photos in this book present 24 challenging and amazingly lifelike models—from intermediate to complex in terms of their level of difficulty. The 24 unique models in this book include: The Swan—The multilayered wings and body give this familiar model a major three-dimensional upgrade The Crane—Far from traditional, this crane rests on its built-in platform, and has an optional open wing configuration that can double as a fancy box Peacocks—One with tail feathers stowed neatly behind, and another with its tail fan proudly displayed The Swallow—Its distinctive bifurcated tail is on display in a kinetic diving pose The Crested Kingfisher—The artfully modeled eye of this hunter appears to be on the lookout for its next meal Stink Bug—there's nothing foul about this instantly recognizable shield-shaped insect model Beetles—A Horned Beetle with unfurled wings and a Rhinoceros Beetle with an intimidating spiky head Flying Chinese Dragon—Segmented and supple, this ancient symbol of power and good fortune is poised to pounce The Dragonfly—This incredibly detailed form is the most challenging model here, but the spectacular results are well worth the effort And many more!

*Under the Sea Origami* Nov 23 2022 From a slithering electric eel to a ferocious barracuda, Duy Nguyen shows you simple paper folding techniques for crafting extraordinary sea creatures. These striking projects, specially designed for Under the Sea Origami, are fun to make using Nguyen's instructions. You don't have to dive under the sea to spot dolphins because these mammals enjoy jumping out of the water. Your origami model will emulate this graceful leaping motion once you create its intricately-folded arched back, fins, and snout. With a long, wide body and whip-like tail, the stingray is a most distinctive-looking fish. It appears to be in mid-flight even though it's nimbly swimming in the water. The hammerhead shark is easily recognized by the shape of its skull. A large tail, made by using mountain and valley folds, rises dramatically to give the hammerhead a great silhouette. The origami blue shark, on the other hand, will attract attention because of its large gaping mouth! To complete the swordfish, you'll need to attach two pieces of folded paper together. Anyone might be frightened by the appearance of a creature that has a swordlike beak and pointy head, unless it was made of paper like this one is! The squid is as fun to create as the swordfish. Its creepy tentacles will take shape after you cut the valley-folded tail into layers. You will find that these unusual origami projects are among the most original ever designed. Book jacket.

An interactive way to foster appreciation and understanding of our planet's endangered species! Origami Endangered Animals Kit, from master origami artists Michael LaFosse and Richard Alexander, is designed to educate and entertain in equal measure. This origami kit includes everything you need: 48 large sheets of high-quality double-sided folding paper A full-color 64-page instruction book Free online video demonstrations Educational notes about endangerment and threatened species The 12 animals featured in this kit range from the diminutive Macaque to the massive Blue Whale, and also include: The Leopard: These big cats are the victims of shrinking habitats and trophy hunters. Only 12,000 to 14,000 remain in the world. The Rhinoceros: These animals are frequent targets of poachers. There are 28,000 to 30,000 individuals remaining. The Macaque: These clever primates suffer from disease and shrinking habitats as farmlands expand. The Gorilla: These critically endangered primates are being rapidly hunted to extinction. The Sea Turtle: Ungainly on land, these reptiles are victims of beach development, bycatch, poaching, marine debris, and more. The Tiger: A ferocious apex predator, these big cats suffer from shrinking habitats, hunting, and poaching. Only 8,000 to 10,000 individuals

remain, half of them in captivity. The Elephant: The largest land mammal, these massive herbivores are threatened by habitat loss and poaching. The Great White Shark: These impressive predators are critically endangered due from overfishing, and slow reproductive maturity. Only around 3,500 individuals remain. The Blue Whale: The largest animal on earth, tipping the scales at over 120 tons! These giants were nearly hunted to extinction and are now recovering their numbers, but face many environmental challenges. There are estimated to be 10,000 to 25,000 individuals remaining in the world. The Emperor Penguin: These majestic flightless birds live exclusively in the southern hemisphere. Not yet endangered, but severely threatened. The Giant Panda: These cuddly bears are threatened by habitat pressure and low birthrates. Only around 1,200 remain in the world. The Australian Sea Lion: These mammals spend most of their time in the water and are heavily hunted, their food sources heavily fished out until recently. Fewer than 15,000 individuals remain. These fun-to-fold paper animals are an ideal way to bring natural beauty into your home or office, while also highlighting the plight of endangered wildlife species. Animal figures are the most popular form of origami, and now anyone can use them to learn more about these important species.
